Twitter Revolution Deborah Micek, Warren Whitlock, 2008 NO RULES The revolution is underway The power of social media lies with the people who use tools like Twitter com You decide how to use your power Our goal is not to create rules to follow on Twitter We simply want to give you the best tips resources and strategies to guide your success on Twitter at an accelerated pace Our mission is to help you avoid trial and error as early adopters were forced to endure and help you participate in one of the greatest communication revolutions of our time This book was designed to help show everyone from the small business owner to the CEO of a large corporation from work at home moms to politicians in Washington DC how they can participate in the fastest growing social network and micro blogging revolution taking place right now Join us on Twitter

Trump's dramatic electoral victory. Attestation to the power of space technology Felix Babatunde Ale, 2016-12-13 Research Paper undergraduate from the year 2016 in the subject Communications Media and Politics Politic Communications language English abstract Twitter which is a product of Computer Science and Technology advancements improved the connection between Donald Trump and the citizens of the United States of America in such a huge way The flexibility ease as well as the interactive capacity of Twitter as a social networking platform not only helped Donald Trump to build his brand as a potential presidential candidate but also established the most relevant platform where he could respond to any of the concerns of citizens in the most satisfactory way possible Notably the public is more connected to a person who reaches out to the people And Twitter to a large extent gave Donald Trump the possibility to reach out to the general public in a way that no other communication media could

A Comprehensive Approach on Sentiment Analysis & Prediction Manu Banga, 2023-01-23 Document in the subject Computer Sciences Artificial Intelligence language English abstract In today scenario there is abrupt usage of microblogging sites such as Twitter for sharing of

feelings and emotions towards any current hot topic any product services or any event Such opinionated data needs to be leveraged effectively to get valuable insight from that data This research work focused on designing a comprehensive feature based Twitter Sentiment Analysis TSA framework using the supervised machine learning approach with integrated sophisticated negation handling approach and knowledge based Tweet Normalization System TNS We generated three real time twitter datasets using search operators such as Demonetization Lockdown and 9pm9minutes and also used one publically available benchmark dataset SemEval 2013 to assess the viability of our comprehensive feature based twitter sentiment analysis system on tweets We leveraged varieties of features such as lexicon based features pos based morphological ngrams negation and cluster based features to ascertain which classifier works well with which feature group We employed three state of the art classifiers including Support Vector Machine SVM Decision Tree Classifier DTC and Naive Bayesian NB for our twitter sentiment analysis framework We observed SVM to be the best performing classifier across all the twitter datasets except 9pm9minutes DTC turned out to be the best for this dataset Moreover our SVM model trained on the SemEval 2013 training dataset outperformed the winning team NRC Canada of SemEval 2013 task 2 in terms of macro averaged F1 score averaged on positive and negative classes only Though state of the art twitter sentiment analysis systems reported significant performance it is still challenging to deal with some critical aspects such as negation and tweet normalization
