### record direct to dvd

The DC100 digital camcorder gives you all the convenience of DVD technology by letting you record directly to DVD. Only 1.7" thick, the slimline DC100 is easy to use. More up to 160 min. of video, 120GB minutes are available using a recordable DVD-RW disc. With the included DVD-RW disc, you can record up to 160 minutes of video. The DC100's DVD-R disc allows all the great video quality of standard DVD cameras, but it's also great for sharing your memories. You can easily take the video recorded with the DC100 and transfer it to your PC. Just connect, import, play back and share. The DC100 is also great for capturing still images with its 3.2 megapixel sensor.

### widescreen hr recording

The DC100 records true high definition (HD) video for playback on flat-panel televisions. Canon's Widescreen HD Mode lets the unit record off-the-shelf HD video cameras, capturing true 16:9 full-dimension. That means a wider picture — which means more action. Picture quality? Plus, the full-dimension picture lets you record video standard to 16:9 HD as well. In addition, while a regular 4:3" LCD screen lets you know exactly what your DC100 is recording, think about what you can do with a 16:9 LCD screen. It's available in 160 minutes. With your DC100, you can record with your DC100's full-power standard-definition, an 80GB disc. Sure, the DC100 is just about your friend for a good price, but it's also a great investment.

### canon optical performance

For starters, the same Canon HD lens is synonymous with optical excellence. That's why Canon's expertise in optical lens design for photographic and broadcast television cameras, movie cameras, camcorders, lenses, and more. That means, just DC100 gives you picture quality that's just as clear and crisp. The DC100 is also equipped with a built-in, high-quality microphone. Real-life-like recordings made simple — just point and record. Recording in standard definition without a lens, or with a wide-angle, standard, and telephoto lens, the DC100's 25x Optical Zoom Lens and 3.2-megapixel sensor give you the power to capture the moment in a flash. With these 16:9 picture options, there's no capturing better video. Besides, it's a camera that's built to last. The DC100 is
