Excellence and Equity in Literacy Education William Tunmer, J. Chapman, 2015-06-13 Literacy is arguably the most important goal of schooling as to a large extent it determines young children's educational and life chances and is fundamental in achieving social justice New Zealand's literacy education programme has long been regarded as one of the world's most successful approaches to teaching literacy skills to young children Excellence and Equity in Literacy Education questions this widely held assumption In the late 1990s the New Zealand government developed a national literacy strategy aimed at reducing persistently large inequities in literacy achievement outcomes The chapters in this edited volume present evidence indicating that the national literacy strategy has failed examine the major factors responsible for the continuation of New Zealand's comparatively wide spread of scores in literacy achievement and describe the most effective strategies for reducing the literacy achievement gap and achieving excellence and equity in New Zealand literacy education Reading Across International Boundaries Roger Openshaw, Janet Soler, 2007-05-08 This book explores debates about teaching reading set in social cultural and political contexts It highlights historical and comparative dimensions international influences and challenges preconceptions The collection aims to broaden understanding and propose alternative visions for improving reading education New Zealand Journal of Educational Studies, 2006 Sense-making: Problematizing Constructs of Literacy for 21st Century Education Marilyn J. Narey, Kelli Jo Kerry-Moran, 2021-03-15 This book is a rich yet highly accessible volume that details an exciting and much needed inquiry into the notion of literacy what it is why it is and how it might be framed most effectively for 21st century education The chapters unfold in a creative interplay of practice and theory Narey's insightful questioning into the socio historical cultural implications of literacy as empowerment establishes the critical context while Kerry Moran's examination of the burgeoning literacy landscape reveals challenges for teacher education Drawing upon classic and cutting edge theories Narey builds a provocative and powerful case for a 21st century construct of literacy as sense making sense as relative to the senses i.e sight hearing and sense as making meaning Her innovative model of the literacy event opens up a range of potential foci for analysis and facilitates her teasing out of two

critical areas for instruction sensory perception and aesthetic knowledge This theoretical sense making lens is applied to Kerry Moran s teacher education classroom as the authors reflect upon further development As a timely original and thought provoking work this slim volume of big ideas promises to be a valuable resource for teacher educators and other scholars who seek a clear and cohesive frame for literacy in 21st century education This is a very well written scholarly text that provides a new and important theory of 21st century literacy Narey s sketches of literacy as sense making are laid out in logical form building upon researched and referenced sources to ground her ideas and offering the reader information examples and new insights In addition to providing many significant perspectives underpinning her new theory Narey provides excellent historical and current explanations about literacy from highly respected researchers in the field The inclusion of a practical application of Narey s conceptual theoretical framework to Kerry Moran s example of an instructional unit in a teacher education course is helpful to understanding the theory in practice The references throughout the work are extensive comprehensive and very well documented This text Sense making Problematizing Constructs of Literacy for 21st Century Education contributes original thinking to the field of literacy and learning and would be an excellent resource for literacy and language professors or instructors in a post graduate or professional development program Penny Silvers Professor of Education Dominican University USA [Children's Software & New Media Revue](#) ,2001 **Media Review Digest** C Edward Wall,2005-08 **Index to Media and Materials for the Mentally Retarded, Specific Learning Disabled, Emotionally Disturbed** National Information Center for Special Education Materials,1978 [NICEM Index to Nonprint Special Education Materials, Multimedia Learner Volume](#) National Information Center for Educational Media,National Information Center for Special Education Materials,1979 **NICEM Update of Nonbook Media** National Information Center for Educational Media,1978 *Teacher's Directory of Reading Skill Aids and Materials* Emerald V.
