Healing and the Healer George F. Cairns, Lawrence Avery Pottenger, Nancy U. Cairns, 1996 [Clinical Problem Solving in Orthodontics and Paediatric Dentistry E-Book](#) Declan Millett, Peter Day, 2016-10-18 Clinical Problem Solving in Orthodontics and Paediatric Dentistry third edition provides a unique step by step guide to differential diagnosis and treatment planning. The popular Clinical Case format helps readers combine different dental procedures into a rational plan of treatment for patients who may have several dental problems requiring attention. This is a third edition of a hugely successful practical resource in orthodontics and paediatric dentistry which is ideal for undergraduate dental students and postgraduates preparing for the MJDF and similar exams. Useful Clinical Case format promotes a logical approach to problem solving through history taking, clinical examination and diagnosis. Contains approximately 350 photographs, 50 line artworks and 40 tables. Provides two different approaches to the Clinical Cases: some topics include scenarios with questions and answers, others include differential diagnosis with a focus on how to plan and manage treatment effectively. Key point boxes systematically emphasise core knowledge, assessment and treatment approaches. Useful Mind Maps provide a focused framework for learning and revision. Thoroughly updated text with over 140 new clinical images. New orthodontic sections covering classification and definitions, referral guide, implications of some medical problems together with further information on CBCT and TADs, protraction facemask treatment, management of non-nutritive sucking habits and retainer types, and problems. New authorship to paediatric dentistry section provides comprehensive text revision. New paediatric dentistry Clinical Cases address behavioural problems in the child and adolescent, the treatment of children with learning difficulties and physical disability, as well as providing coverage of common medical problems in children and assessment of dental trauma.
