web 9 what is internal reflection when light is travelling in a certain medium is reflected off an less optical dense material the  
process is referred to as internal reflection 10 explain guided mode guided mode is a pattern of electric and magnet field  
distributions that is repeated along the fiber at equal intervals 11

optical communication its history and recent progress - Jun 19 2022

web dec 14 2016 this chapter begins with a brief history of optical communication before describing the main components  
of a modern optical communication system specific attention is paid to the development of low loss optical fibers as they  
played an essential role after 1975 the

pdf ec2402 optical communication and networking two marks questions - Jul 21 2022

web optical fiber is one of the most important communications media in communication system due to its versatile  
advantages and negligible transmission loss it is used in high speed data transmission although optical fiber communication  
has a lot of advantages dispersion is the main performance limiting factor
