Postapocalyptic Fiction and the Social Contract Claire P. Curtis, 2010-07-17 Postapocalyptic Fiction and the Social Contract We'll Not Go Home Again provides a framework for our fascination with the apocalyptic events. The popular appeal of the end of the world genre is clear in movies, novels, and television shows. Even our political debates over global warming, nuclear threats, and pandemic disease reflect a concern about the possibility of such events. This popular fascination is really a fascination with survival: how can we come out alive? And what would we do next? The end of the world is not about species death but about beginning again. This book uses postapocalyptic fiction as a terrain for thinking about the state of nature, the hypothetical fiction that is the driving force behind the social contract. The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian, a Lockean, or a Rousseauian lens, including Lucifer's Hammer by Larry Niven and Jerry Pournelle, Alas, Babylon by Pat Frank, Malevil by Robert Merle, and Into the Forest by Jean Hegland. The latter half of the book examines Octavia Butler's postapocalyptic Parable series in which a new kind of social contract emerges, one built on the fact of human dependence and vulnerability.

Evolution and Popular Narrative

, 2019-06-07 The contributors to this volume share the assumption that popular narrative, when viewed with an evolutionary lens, offers an incisive index into human nature. In theory, narrative art could take a near infinity of possible forms. In actual practice, however, particular motifs, plot patterns, stereotypical figures, and artistic devices persistently resurface, indicating specific predilections frequently at odds with our actual living conditions. Our studies explore various media and genres to gauge the impact of our evolutionary inheritance in interdependence with the respective cultural environments on our aesthetic appreciation. As they suggest, research into mass culture is not only indispensable for evolutionary criticism but may also contribute to our understanding of prehistoric selection pressures that still influence modern preferences in popular narrative.

Contributions by David Andrews, James Carney, Mathias Clasen, Brett Cooke, Tamás Dávid, Barrett, Tom Dolack, Kathryn Duncan, Isabel Behncke Izquierdo, Joe Keener, Alex C. Parrish, Todd K. Platts, Anna Rotkirch, Judith P. Saunders, Michelle Scalise, Sugiyama, Dirk Vanderbeke, and Sophia Wege.

The Palgrave Handbook of Popular Culture as Philosophy

Dean A. Kowalski, Chris Lay, Kimberly S. Engels, 2024-04-30 Much philosophical work on pop culture apologises for its use, using popular culture as a necessary evil, something merely useful for reaching the masses with important philosophical arguments. But works of pop culture are important in their own right: they shape worldviews, inspire ideas, change minds. We wouldn't baulk at a book dedicated to examining the philosophy of The Great Gatsby or 1984, why aren't Star Trek and Superman fair game as well? After all, when produced, the former were considered pop culture just as much as the latter. This will be the first major reference work to right that wrong, gathering together entries on film, television, games, graphic novels, and comedy, and officially recognizing the importance of the field. It will be the go-to resource for students and researchers in philosophy, culture, media, and communications, English and history, and will act as a springboard to introduce the reader to the other key
