

As you're able to focus more and more on you, you'll never run out of possibilities for growth, talents and skills, and once you begin to understand exactly what they admire and rely on you, it

Here's the funny part about discovering your place in the world is to immediately downplay your value. What you do because it comes to you so easily. Truth: Your unique combination of skills and talents will never be duplicated by anyone else.

The secret is to embrace this idea and then use your skills at every opportunity until you're worn out—which will ultimately mean learning to do energy-draining activities you're not competing in. That's where the power lies. Discovering what you're able to work in your zone is your surest path.

In Dan Sullivan's case, he's done the work to strengthen his own natural talents. One of his talents is to say it all.

"If you work throughout your life on improving yourself, you get a lot of really strong weaknesses."

Just think what's possible with a focus on your strengths.

What Dan's day looks like.

As the leader of a company that believes in growth, Dan understands that the greatest productivity and results is a genuine interest and, just like compound interest, grows over time and your business.

He's also aware of where his mental energy is. This helps him to know when to rest. In fact, the entire team at Strategic Coach knows where everyone else on the team is.

When Dan comes into the office in the morning, he's supporting his day in all the right ways. He has his schedule for the day and has all the information he needs to go.

His direct team makes sure he has everything he needs throughout. Even our caterer is an important part of the team, ensuring another important and important team takes responsibility for something so he can focus solely within it.
