Felix Seidler,2009-11 Essay from the year 2009 in the subject Politics Political Theory and the History of Ideas Journal grade 73 von 100 Punkten The University of Sydney Center for International Security Studies course New Security Challenges language English abstract This essay deals about the approaches of Critical Security Studies CSS to the the War on Terrorism WoT To understand the approaches of CSS it is important to know that this view has its origin in the critique of the traditional approaches realism and liberalism A consequence of this is CSS do not see the state as most important referent object In contrast to realism and liberalism it is the approach of CSS to look for alternative referent objects beside the state But CSS are not just one approach It is divided into different schools or drifts

This essay wants to research how these schools and drifts analyse the WoT Central to this are the paragraphs 2 and 3 which deal about Welsh School and Copenhagen School These two are most important drifts inside CSS The other drifts will be discussed in paragraph 4 Afterwards in paragraph 5 it will be pointed out where the failures and critic points of CSS in general as well as in its drifts are Even if the impacts in its drifts differ CSS is based on the Critical Theory Frankfurt School Habermas and on Poststructualism Foucault This means on the one hand that CSS does not take the state as the most important referent object but thinks more broadly about the reasons for in security And on the other hand CSS researchers according to Critical Theory claim reality to be socially constructed and want to look behind the empiricist world In context of WoT we will see later that this means a critic on official or governmental standpoints The debates between CSS and governmental or traditional approaches start at the definition of terrorism Definitions of terrorism are broadly discussed in practical politics and in International Relations   **Critical Terrorism Studies** Jacob Stump,Priya Dixit,2013-05-02 This book is an introduction to critical approaches to terrorism studies While there is a growing body of Critical Terrorism Studies CTS literature devoted to empirical examples and conceptual development very little has been written about how to systematically carry out this kind of research Critical Terrorism Studies fills this gap by addressing three key themes The position of terrorism studies and critical terrorism studies in the discipline of International Relations IR Theoretical and methodological elaborations of critical approaches to the study of terrorism Empirical illustrations of those approaches Drawing upon a range of engaging material the volume reviews a series of non variable based methodological approaches It then goes on to provide empirical examples that illustrate how these approaches have been and can be utilized by students teachers and postgraduate researchers alike to critically and rigorously study terrorism This textbook will be of much interest to students of terrorism studies sociology critical security studies and IR in general   **Critical Security Studies** ,19??
