Ludicrous Edward Niedermeyer,2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype Tesla Motors and CEO Elon Musk have become household names shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom The company's market valuation now rivals that of long established automakers and to many industry observers Tesla is defining the future of the industry But behind the hype Tesla has some serious deficiencies that raise questions about its sky high valuation and even its ultimate survival Tesla's commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers even as it struggles to mass produce cars reliably and with minimal defects While most car manufacturers struggle with the razor thin margins of mid priced sedans Tesla's strategy requires that the Model 3 finally bring it to profitability even as the high priced Roadster and Model S both lost money And Tesla's approach of continually focusing on the future even as commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans In Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day to day realities of the company and the cars it produces Blending original reporting and never before published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it's never been told before with clear eyes objectivity and insight *Digital Humanitarians* Patrick Meier,2015-01-06 The overflow of information generated during disasters can be as paralyzing to humanitarian response as the lack of information This flash flood of information social media satellite imagery and more is often referred to as Big Data Making sense of this data deluge during disasters is proving an impossible challenge for traditional humanitarian **Investigating Online Heritage Crime** Damien Huffer,Evie Handby,2025-12-02 From Reddit and YouTube to collector forums and live auctions the avenues through which cultural heritage can be bought and sold are rapidly growing alongside new digital technologies Considering anew the implications of this digital expansion for the online trafficking of cultural property and human remains Investigating Online Heritage Crime conducts an exacting examination of these relatively under researched sites of heritage crime The chapters address how networks operate within and because of the interconnected social media and e commerce landscape Through doing so this volume highlights where markets for online heritage are headed especially given the ever prevalent adoption of AI and LLM Large Language Models technology that is profoundly reshaping all aspects of online life including licit and illicit commerce **Civil Rights in Black and Brown** Max Krochmal,Todd Moya,2021-11-09 Not one but two civil rights movements flourished in mid twentieth century Texas and they did so in intimate conversation with one another Far from the gaze of the national media African American and Mexican American activists combated the twin caste systems of Jim Crow and Juan Crow These insurgents worked chiefly within their own racial groups yet they also looked to each other for guidance and at times came together in solidarity The movements sought more than integration and access they demanded

The Pornography Industry Shira Tarrant, 2016-03-01 We may know pornography when we see it but the business of pornography is a surprisingly elusive subject Reliable figures about the industry are difficult to come by and widely disputed but one matter that is hardly debatable is that pornography is a major and ubiquitous enterprise Porn allegedly accounts for one third of all internet traffic currently though the data about actual consumption is unclear Reports in recent years have suggested that 70 million individuals visit porn sites every week that among viewers aged 18-24 women watch more porn than men and that among middle aged white collar workers three quarters of men and half of women have admitted to looking at pornography websites while at work While debates and emotions around porn can run high there is a crucial need for reliable information and rational conversation In this book Shira Tarrant parses the wide range of statistics that we have on the pornography industry

sorting myth from reality in an objective fascinating and knowledgeable fashion She looks at ongoing political controversies around the industry the feminist porn wars the views of the religious right the history of pornography landmark legal cases and the latest in medical research The Pornography Industry also explains the industry basics who works in porn why people become performers how much they earn and what happens on a porn set It further delves into important questions such as how many teenagers watch porn and should we worry about it What is porn piracy and can it be stopped What can the industry do about sexist and racist pornography Does porn cause violence against women Can people become addicted to porn Is watching porn the same as infidelity By presenting competing perspectives in an even handed way The Pornography Industry will enable readers to explore these provocative issues and make their own best decisions about the debates
