[Primary Care - E-Book](#) Terry Mahan Buttaro,Patricia Polgar-Bailey,Joanne Sandberg-Cook,Karen

L. Dick, Justin B. Montgomery, 2024-03-02 Selected for Doody's Core Titles 2024 in Advanced Practice There's no better preparation for Nurse Practitioners and other adult primary care practitioners. Buttaro's Primary Care Interprofessional Collaborative Practice 7th Edition provides the concise yet thorough information that you need in today's fast-paced interprofessional collaborative environment. With authorship reflecting both academic and clinical expertise, this comprehensive evidence-based primary care text reference shows you how to deliver effective truly interdisciplinary health care. It covers every major adult disorder seen in the outpatient office setting and features a unique interprofessional collaborative approach with referral and Red Flag highlights and more. New to this edition are chapters on health equity, public health preparedness, endocannabinoids, and self-care. Comprehensive evidence-based accurate and current content provides a complete foundation in the primary care of adults for NP students including students in Doctor of Nursing Practice (DNP) programs and reflects the latest research and national and international guidelines. UNIQUE Interprofessional collaborative approach equips you for interprofessional collaborative practice in the contemporary healthcare environment. Consistent chapter format and features reflect the systematic approach used in adult primary care practice to promote improved clinical judgment skills, facilitate learning, and foster quick clinical reference. UNIQUE Referral Consultation highlights indicate when the NP should collaborate with or refer to other providers. UNIQUE Emergency Referral highlights indicate when the NP should refer the patient for urgent emergent care. UNIQUE Red Flag highlights indicate issues not to be missed. UNIQUE Initial Diagnostics boxes provide quick reference to key decision-making content.

**Pain and Chemical Dependency** Howard Smith M.D.,Steven Passik,2008-04-25 Both pain and addiction are tremendous public health problems Practitioners of every stripe say that they learned precious little about pain or addiction in their training and readily admit that instruction on the interface of pain and addiction is nonexistent The recent problem of prescription drug abuse has only served to highlight the fact that these two worlds need unificationthose who treat pain must be informed about the risks of controlled substances and those who treat addiction need to better and more fully understand their benefits Nowhere is the pooled knowledge of pain management and addiction medicine brought together to allow for a

greater appreciation of the risks of addiction when treating people with pain and the pain problems of those with chemical dependency. This major new volume brings this vast knowledge base together presenting an array of perspectives by the foremost thought leaders at the interface of pain and chemical dependency and is the most comprehensive resource on the subject to date. There have been an increasing number of seminars devoted to this topic and a new society The International Society on Pain and Chemical Dependency has recently been formed and this volume is destined to become the classic text on this multidisciplinary subject. It will appeal to anesthesiologists, neurologists, rehab physicians, palliative care staff, pain center physicians and psychologists. *Care of the Adult with a Chronic Illness Or Disability* Leslie Jean Neal, Sharron E. Guillett, 2004. Care of the Adult with a Chronic Illness or Disability equips nurses working in a variety of community care settings with the tools and knowledge needed for caring for the adult patient living with a chronic or disabling condition. Nursing care is addressed within the interdisciplinary team approach necessary for handling complex chronic conditions and the attendant physical and psychosocial issues. In addition to interdisciplinary treatment of the immediate condition, interventions that help the patient reach rehabilitation goals in functional and lifestyle independence are also covered as are family and caregiver concerns, ethical considerations and end of life issues. Special Think S boxes synthesize the symptoms, sequela, safety, support and satisfaction issues unique to each chronic condition. Descriptive case studies at the end of each chapter illustrate the interdisciplinary team approach to caring for the patient with a chronic illness or disability. Nursing care is addressed as part of the interdisciplinary team approach to planning and directing patient care for successful outcomes. Each chronic illness and disability is introduced with an overview of the pertinent pathophysiology, clinical manifestations and diagnostic tests. Family and caregiver concerns, ethical considerations and end of life issues specific to a chronic condition are discussed as appropriate. Alternative and complementary therapies are covered in a separate chapter and more specifically within each chronic condition chapter. Internet and other resources relevant to each condition are included in a box at the end of each chapter. Chapters are organized by body system for easy reference and access to specific chronic conditions. Chapter Objectives give the reader an overview of pertinent chapter points. Unit I General Concepts of Chronic Care Nursing covers general concepts of chronic care nursing including frameworks of chronic care nursing, the various settings of chronic care nursing and alternative approaches and therapies in chronic care nursing. Unit II Caring for the Adult With a Chronic Illness or Disability is organized by body system with each chapter focusing on specific chronic illnesses or disabilities. Unit III Caring for the Adult Living With Cancer or HIV AIDS focuses on the patient living with cancer or HIV AIDS and the unique issues that accompany potentially terminal illnesses.
