

3. An Import Custom Group window will appear. Select the file location. All Exported Group Files (.egf) will be displayed. If the desired group file is not displayed, verify the location and perform this step again.
4. Double-click on the desired file or select one or more files it, and then click the **Open** button. The group(s) will now be listed with the other Custom groups.

Note: If a group is imported with the same name as an existing group, "CopyX" will be added to the group name. The X will be a number. (For Example: If a custom group exists with the name "MyGroup" and a custom group is imported with the same name, the imported group will have the same name, the imported group will have the name "MyGroupCopy1".)
