Barnea-Astrog, Mitchel Becker, 2022-12-30 Demonstrating a relational dialogic way of thinking and writing this book offers an innovative perspective on the human potential for intersubjective engagement and on the nature of true encounter. The authors engage in creative associative dialogues and trialogues inspired by psychoanalysis and Buddhism poetry and religion theory and case studies academic and free styles of writing each enriching the other. Reflecting on the essence of relating they convey a flow between inner private reveries and shared ones and between individual expressions of thought and evolvements of newly born thirds. Through this interdisciplinary experimental setting the authors explore the possibility to reach truths and meanings that each individual would not have achieved on their own. Offering new concepts and formulations that may nourish psychotherapists thought and be usefully implemented in their practice this book presents a pressingly unique and essential viewpoint for psychoanalysts and psychoanalytic psychotherapists in training and in practice.

**Psychoanalytic Conversations with States of Spirit Possession** Shalini Masih, 2023-10-16 Shalini Masih grew up in a stimulating environment of priests and healers witnessing firsthand states of spirit possession and exorcism. In adulthood she revisited these experiences motivating her to extend psychoanalysis outside the clinic's realms into spaces of traditional healing. The outcome of her detailed exploration acknowledges the hugely productive interface between cultural manifestations and concerns of psychoanalysis without reducing the phenomenon of spirit possession to something formulaic. Instead Psychoanalytic Conversations with States of Spirit Possession: Beauty in Brokenness highlights the intrinsic beauty of this complex experience illustrating relevant themes through culturally sensitive psychoanalytic conversations with participants who felt haunted and possessed by ghosts. The author's journey reveals the ghosts of her own inner world. She draws upon her reveries dreams and nightmares to make sense of the unconscious processes in her informant's testimonies journeys that are so often undertaken from one grotesque ghost to another until these ghastly beings reappear as broken part selves in search of the glue of spiritual meaning.

**Psychoanalytic Conversations** Peter L. Rudnytsky, 2013-06-17 In this stunning addition to what has of late become a distinct genre of psychoanalytic literature Peter Rudnytsky presents 10 substantive and provocative interviews with leading analysts with theorists from allied fields and with influential Freud critics. In conversations that Rudnytsky succeeds in making psychoanalytic both in form and in content he guides his interlocutors to unforeseen reflections on the events and forces that shaped their lives and on the personal and intellectual grounds of their beliefs and practices. Rudnytsky a ranking academic scholar of psychoanalysis and the humanities approaches his subjects with not only a highly attuned third ear but also a remarkable grasp of theoretical historical and clinical issues. When his interviewees turn from autobiographical narratives to matters of theory and clinical practice Rudnytsky is clear about his own intellectual allegiance to the Independent tradition of object relations theory and his admiration for John Bowlby and attachment theory. His willingness to set forth his own point of view and occasionally to press a line of questioning infuses his exchanges with an energy even passion heretofore unknown in the analytic interview.

literature Rudnytsky consistently emerges as a partner even an analytic partner in dialogues that meld discovery with self discovery To be sure Psychoanalytic Conversations will find many clinical and scholarly readers among those who relish a good engrossing read But it will have special appeal to students of analysis who share Rudnytsky s belief that if psychoanalysis is to remain vital in the new century it can only be by expanding its horizons and learning from those who have taken it to task **Healing, Rebirth and the Work of Michael Eigen** Ken Fuchsman,Keri S. *Faith* Michael Eigen,2018-05-15 This book explores nuances of faith no faith moments twists and turns of living and focuses on variations of faith beginning with nature sleep beauty goodness the opening closing of the human face and the paradox of the growth of faith through pain and shattering

*The Birth of Experience* Michael Eigen,2014 The birth of experience goes on all life long Giving birth to oneself involves many processes The first chapter of this book expands on Eigen's final talk on Psychoanalysis and Kabbalah for the New York University Postdoctoral

Contemplative Studies Project and focuses in particular on an intertwining of beauty and destruction Beauty is the heart of the Kabbalistic Tree of Life intricately linked both to other capacities and to catastrophic devastation Interestingly Bion also links faith and catastrophe and writes of psychoanalytic beauty thereby creating a rich dance of psychoanalysis with Kabbalah Winnicott adds his own special touch associating the fate of a vital spark with trauma as the personality begins to form and with the work of spontaneous recovery that is a profound part both of living and of therapy sessions The second part of the book is new and focuses on birth processes at different ages and situations exploring in detail how psychoanalysis interweaves with themes from life clinical work and Kabbalah Failed birth processes are part of living but so is the need to midwife existence Eigen suggests that there may be some kind of organ that permeates scans and tastes shifting centers of experience taking note of their fate and partnering their development a kind of inner tuning sense in search of cultivation spanning what we call conscious and unconscious life mind and body and testing the weather for favorable birth conditions

Often we do not know exactly what is happening or how but sense something germinating Domains open that are not confineable or restricted by the tools at hand which is perhaps one reason why analysts are called toolmakers as experience and the tools used to understand it become part of further birth processes In this way Eigen shows how the intimate fusion of psychological and spiritual currents generate new tastes of living

Eigen,2018-05-20 Freud wrote that the greatest problem facing humanity is its destructive urge There is no one factor that solves the issue The Challenge of Being Human explores tendencies that make us up and capacities that try to meet them The shock of ourselves is perennial We are challenged by our own aliveness and a need to open doors as yet unknown We are not done evolving growing learning feeling caring Growth of capacity to tolerate and work with experience is part of our evolutionary challenge This book seeks to support us in whatever ways we can begin to meet this challenge
