

## Trusting Tracy

Story by Andrew Frinkle

Everyone trusted Tracy.  
She always told the truth.  
She treated people nicely.  
She was a true friend.

Travis tried to climb a tree.  
It was a lot of trouble.  
It was tricky to travel up a tree.  
It was a long trip up to the treetop.

AI tools help educators address challenges like large class sizes and diverse student needs by automating administrative tasks and tailoring content to individual learners. This shift has the potential to close educational gaps, enhance student engagement, and improve overall outcomes. As AI continues to evolve, its integration into classrooms could redefine how knowledge is delivered and accessed, fostering more equitable and adaptive learning environments. *Implementing Personalized Learning Techniques with AI* explores how AI can redefine educational practices and enhance the learning experience for both teachers and students. It further delves into the multidimensional role of AI in education, from automating routine tasks to providing personalized learning experiences according to the student's abilities, skills, and needs. Covering topics such as accessible education, student motivation, and vocational school learning environments, this book is an excellent resource for educators, school administrators, education policymakers, instructional designers, edtech developers, academic researchers, and more.

**Evidence and Insights to Inform Early Years Practice** Anne Keary, Lucas Walsh, Janet Scull, Susanne Garvis, 2026-02-24 Despite widespread calls for evidence-based improvement in education, until recently little has been known about using research and other types of evidence to inform teaching and learning of young children, particularly in early childhood education and care settings and the first years of formal schooling. Considering the importance of evidence-informed practice in education, this book offers a timely and innovative exploration of the use of evidence in early years and how this translates to practice. Through rich case studies and reflections on a portfolio of qualitative, quantitative, and mixed method studies, the authors investigate tensions and constructive collaborative possibilities between research, practice, and policy. Chapters intersect with components of the Q Project's Quality Use of Research Evidence (QURE) Framework to provide a lens through which to examine and support evidence-informed practice in a range of diverse communities. The book highlights how evidence can be meaningfully integrated into early years provision to inform policy programmes and practice. This book will appeal to researchers, early years professionals, and policy makers, and provide directions for how research and other evidence can better inform practice from local to international settings. **Beginning Reading and Writing** Dorothy S.
