Developing Comic Book and

Graphic Novel Collections in Libraries Sara Dianne Ray,2010 This research study has several objectives The first is to

research graphic novels and comic books their history and the issues this visual and literary medium has had with censorship with preconceived notions that the medium is only meant for a juvenile audience and with the development of rating standards The second objective is to study current literature that has been written by scholars and librarians on this medium This exploration of graphic novels and comic books and the scholarship and collection development efforts related to them provides a foundation for considering the issues and challenges which current and future librarians may have to face in maintaining this literary form in library collections The third objective is to conduct a focus group and to survey librarians in Tennessee from a range of backgrounds in order to consider a number of questions including if these librarians have encountered patrons who challenged having these books included in their institutions collections what age range the surveyed librarians believe this medium is meant to appeal to and how the librarians would rate content in comic books and graphic novels such as violence language sexual activity etc including terms used by publishers in their rating standards to describe different levels of content The results from this study showed there was quite a difference between what librarians feel is appropriate for the levels they were given and the types of content with there being usually at least a 2 3 year age difference between the top two to three options chosen or there being a difference between the participants selecting an age range and selecting either All Ages or None as appropriate The literature research and the data obtained from the survey along with the responses received from the focus group indicate that since the majority of participants stated they sometimes experienced selection difficulties and problems with cataloging and shelving these books picking an appropriate age range for a comic book or graphic novel is very subjective and librarians and publishers are still a long way away from agreeing on the appropriateness of the content

Comic Book Collections and Programming Matthew Z. Wood, 2018-08-15 Comic Book Collections and Programming will help librarians build a collection that's right for their library including specialty collections for kids teens and adults It covers the practical realities of this non traditional format like binding weeding and budgeting It also address advanced topics like comics and pedagogy bringing comics artists and authors into the library and using comics as a community outreach tool even hosting comic conventions in libraries The guide covers Comics for kids teens and adults Comics genres from superheroes to fantasy to Manga from memoirs and biographies to science texts to Pulitzer Prize winning literature Comics publishers and distributors Comics history and influential contemporary creators Online resources and communities After reading the guide librarians will be able to Organize creator visits and events Plan and produce community anthologies Host drawing parties and comic discussion groups Preserve comics in a library environment Develop run and grow a library based comic convention This is an essential reference for collections librarians children's librarians and teen librarians whether they are comics lovers or have never read an issue The guide is aimed at public academic and school libraries
