The Routledge Handbook of Community Development Sue Kenny, Brian McGrath, Rhonda Phillips, 2017-10-18 The Routledge Handbook of Community Development explores community development theory and practice across the world. The book provides perspectives about community development as an interactive, relevant, and sometimes contradictory way to address issues impacting the human condition. It promotes better understanding of the complexities and challenges in identifying, designing, implementing, and evaluating community development constructs, applications, and interventions. This edited volume discusses how community development is conceptualized as an approach, method, or profession. Themes provide the scope of the book with projects, issues, or perspectives presented in each of these areas. This handbook provides invaluable contextualized insights on the theory and practice of community development around core themes relevant in society. Each chapter explores and presents an issue, perspectives, project, or case in the thematic areas with regional and country context included. It is a must-read for students and researchers working in community development planning and human geography and an essential reference for any professional engaged in community development.

Popular Culture in Nordic Noir: A Study of Selected Works of Maj Sjöwall & Per Wahlöö, Henning Mankell, and Steig Larsson Dr. Raunak Singh Rathee, 2023-02-15 This book discusses that the genre of crime fiction is suitable for the presentation of the crises, conflicts, and indeterminacies present in the plot of the selected works. This book exposes the darker side of Scandinavian countries, particularly Sweden, as the writers and works selected for the book are based on Swedish society. Though as a matter of fact, Scandinavian countries are considered to be the most egalitarian and progressive welfare societies all over the world. The present book explores how popular culture may prove to be a significant thematic approach to studying Scandinavian crime fiction, also called Nordic Noir. The Swedish authors use popular culture as a tool through which they try to convey their concerns regarding various serious issues like anti-immigration, racism, xenophobia, violence against women, the violence of human rights crimes like the drug trade, human trafficking, etc. By assigning the central place to Sjöwall and Wahlöö's Roseanna (1965), The Laughing Policeman (1968), The Terrorists (1975), Henning Mankell's Faceless Killers (1991), Sidetracked (1995), The Fifth Woman (1996), Steig Larsson's The Girl with the Dragon Tattoo (2005), The Girl who Played with Fire (2006), and The Girl who Kicked the Hornets' Nest (2007), this book enunciates the notion of popular culture and crime fiction genre in the propagation of the socio-critical reflections of life in the welfare state. Hence, this work also analyses the plot, characters, and themes in the aforementioned works to locate the elements of popular fiction in Scandinavian crime novels by representing this genre's ubiquitousness in the twenty-first century.

K-12 Douglas Fisher, Nancy Frey, Dominique Smith, John Hattie, 2021-03-30 For more than a year now we educators have been tested and tested again We've been stretched we've been pulled we've been put through the wringer But now it's time to rebound It's time to bounce back come back better and benefit from the many lessons learned to reignite engagement accelerate learning and move forward with fresh optimism and better systems for schooling Enter Doug Fisher Nancy Frey Dominique Smith and John Hattie whose Distance Learning Playbooks have supported more than a half million educators across pandemic teaching and who are here now to advise you on this next absolutely critical leg of our ongoing journey Complete with tools and strategies prompts and exercises Rebound A Playbook for Rebuilding Agency Accelerating Learning Recovery and Rethinking Schools will help you Address the collective traumas we have experienced during the pandemic and rebuild our sense of agency and self so that we can attribute student success to both teachers and students efforts Evaluate what we have learned about remote teaching and learning to determine what to carry forward and what to leave behind Shift the narrative from learning loss to learning leaps and implement instructional and assessment practices that ensure our students reclaim lost knowledge build skills develop agency and accelerate gains Redefine classrooms learning experiences the ways schools operate and the very idea of schooling itself The greatest travesty that can arise for schools after 2020 21 Doug Nancy Dominique and John write is to rush back to the old normal and learn nothing or little about what worked well That's why this book has focused on rebounding and taking the opportunity to create an even better schooling system one that serves even more students and focuses more on what matters most Let's agree not to reduce the impact that our expectations have on students learning What if we talk about learning leaps instead of learning loss What if we identify where students are in their learning and identify critical content that they must learn now to accelerate their performance in the future And what if we raise our expectations for students rather than lower them Douglas Fisher Nancy Frey Dominique Smith and John Hattie **Yojana**, 2014 *Psychology in Everyday Life* David G.
