## **Comments For Preschool Progress Reports:**

*Developing Standards-Based Report Cards* Thomas R. Guskey, Jane M. Bailey, 2009-11-17 Guskey and Bailey offer realistic solutions to improving how educators communicate a student's academic progress to all stakeholders. Their work provides a faculty with the research step by step guidelines and reporting templates to begin the dialogue to develop a standards based report card. Without a doubt this work is a model for schools that want to improve their system of grading and reporting. It certainly has transformed ours. Jeffrey Erickson, Assistant Principal, Minnetonka High School, MN. Develop standards based report cards that are meaningful to students, parents, and educators. Although schools have moved toward standards based curriculum and instruction, grading practices and reporting systems have remained largely unchanged. Helping school leaders gain support for transitioning from traditional to standards based report cards, this book guides educators in aligning assessment and reporting practices with standards based education and providing more detailed reports of children's learning and achievement. A standards based report card breaks down each subject area into specific elements of learning to offer parents and educators a more thorough description of each child's progress toward proficiency. This accessible volume provides a clear framework for developing standards based report cards. Shows how to communicate with parents, students, and other stakeholders about changes. Illustrates how to achieve grading consistency without increasing teachers' workloads or violating their professional autonomy. Filled with examples of standards based report cards that can be adapted to a school's needs, this practical resource shows district and school administrators how to establish reporting practices that facilitate learning.

*An Analysis of Kindergarten & Elementary Report Cards* D. Keith Osborn, Janie Dyson Osborn, 1989     *Recent Perspectives on Early Childhood Education and Care in Canada* Larry Prochner, 2012-01-01 Early childhood education is critical for preparing children for success in formal school settings and as such is a major concern throughout the world. This volume brings together ground breaking research in this area to help practitioners, students, policy makers, curriculum designers, and intervention program developers understand the latest ideas and advances in the field. Recent Perspectives of Early Childhood Education and Care in Canada centres on three key themes. The first provides a survey of historical social policy, economic and provincial regulations and policies related to early childhood education and care. The second focuses on issues related to children's learning, curriculum and teachers. The final theme addresses recent developments in government involvement in early childhood education and care that are unique to Canada. The contributors to this volume demonstrate the pressing need that exists to further public discussion on early childhood education to help policymakers shape better decisions for Canadian families.

**Educating Young Children from Preschool Through Primary Grades** Laverne Warner, Judith Sower, 2005 Catering to the first time teacher, the authors provide day to day challenges of what it means to teach young children in the classroom while fostering a mentoring environment for pre service teachers entering the field. Chapter 4 addresses children with special needs and commonly used modifications for each of the disabilities. A unique

chapter on teaching fourth graders chapter 10 has been included that may be covered or skipped depending upon state requirements Lesson planning is emphasized throughout and sample lesson plans and mini lessons have been included for every grade level and subject area    **Resources in education ,1991    Growing Mathematical Ideas in Kindergarten**
