**Anatomy and Physiology Study Guide for Speech and Hearing** William Richardson Culbertson, Stephanie S. Cotton, Dennis C. Tanner, 2006 This Study Guide is uniquely designed to complement current introductory textbooks and online courses in speech and hearing anatomy and physiology Whether taught face to face or online anatomy and physiology courses and their accompanying texts are dense in content This workbook answers the need for a practical book being neither unnecessarily complex nor academic for undergraduate training in speech language pathology It is designed to allow students to work at their own pace to learn how to organize how to bring together and how to functionally apply the content learned in their coursework The Study Guide is organized into seven units The first unit contains a comprehensive synopsis of anatomy and physiology including content such as locator terms planes of reference and anatomical position enabling students to learn the vocabulary needed to study anatomy and physiology The second unit takes a brief look at the basics of cells and tissues to

form a foundation for study of larger structures The remainder of the workbook organizes speech and hearing anatomy into the functional categories of respiration phonation articulation as well as the nervous and auditory systems Each unit provides an extremely well written practical summary of the particular speech and hearing system followed by learning objectives specific questions students can answer in outline format and finally a self test This all new Study Guide clarifies and simplifies a complex element of the introductory course and provides an ideal complementary learning and self testing tool for students To complement the workbook the Instructor s Manual includes the answers to the workbook questions and is available in both print and digital format Course instructors will find this much needed guide an essential tool for clarifying complex issues presenting material in simple graphic form and structuring coursework **Life: The Science of Biology**
