

An Integrated Approach for the Operational Design of a Cellular Manufacturing System

Ayesha Maroof¹, Adnan Tariq², Sahar Noor³

RECEIVED ON 26.06.2019, ACCEPTED ON 19.05.2020

ABSTRACT

Shorter product life cycles, unpredictable demand patterns and the ever-shrinking time to market, have been constantly keeping the manufacturing firms under a lot of pressure. To face these challenges the manufacturing organizations have been shifting to Cellular Manufacturing (CM) due to its benefits of reducing manufacturing costs, increasing flexibility and delivering orders on time. Despite having several benefits, designing a Cellular Manufacturing System (CMS) for a real-life application is a tough ask. The main challenge is the part-machine grouping in cells. It becomes even more challenging when the group scheduling (GS) problem is handled alongside the part-machine clustering. To take up this challenge, an integrated model is developed during this research which handles the machine-part grouping and the GS problems, simultaneously. To optimize the multiple objectives of maximizing Grouping Efficacy (GE) and minimizing Makespan (C_{max}), concurrently, a Hybrid Genetic Algorithm (HGA) based approach is developed. The proposed technique is validated through the famous benchmark problems, unlike the several approaches already available in literature. The computational results have shown that the integrated approach, presented in this paper, is more effective as compared to a sequential technique. Also, its accuracy remains intact even if it is applied to large sized problems.

Keywords: Cellular Manufacturing System, Grouping Efficacy, Makespan, Hybrid Genetic Algorithm

1. INTRODUCTION

Cellular Manufacturing System (CMS) is a manufacturing concept based on the philosophy of Group Technology (GT). It is implemented by arranging the entire manufacturing system into cells, where parts having similar processing requirements are processed inside a single cell. This particular arrangement (identification of part families and corresponding machine groups) of the system makes the production flow simpler and shorter which significantly decreases the lead times and material handling costs. This is the reason that

CMS is largely considered to have the ability of economically producing parts in medium volume and variety as compared to the conventional manufacturing systems. Main cause for the success of CMS is its capacity to reduce: set-up times, work in process, lot sizes, production equipment and enhanced productivity [1]. Cellular Manufacturing (CM) is the approach which is best suited to the present day's competitive market environment where manufacturers consistently strive to increase their efficiency by reducing delivery times and improving product quality without substantially enhancing investments [2]. Despite being hugely beneficial,

Cellular Manufacturing Systems An Integrated Approach:

CELLULAR MANUFACTURING SYSTEMS : AN INTEGRATED APPROACH PARASHAR, B.S. NAGENDRA, 2008-10-24

Cellular manufacturing an application of group technology is a stepping stone to achieve world class manufacturing status It has emerged as an important technique to cope up with fast changing industrial demands for the application of newer manufacturing systems This comprehensive and well written text deals with all facets of cellular manufacturing right from introduction to application in a chronological order The book first introduces cell formation techniques followed by elimination of exceptional components evaluation of solutions cell characteristics and production control issues like scheduling line balancing and inventory control Finally it discusses about the application of cellular manufacturing in a large public sector The text is supported by numerous figures tables and examples and also furnishes simple algorithms for complex methods Primarily intended for the postgraduate students of mechanical engineering and production engineering with specialization in manufacturing systems group technology it will also be useful for the researchers scientists and professionals as a reference book

An Integrated Approach for the Design and Operation of Cellular Manufacturing Systems Wen-Shiom Lian, 1989

Agile Manufacturing A. Gunasekaran, 2001-01-25 Agile manufacturing is defined as the capability of surviving and prospering in a competitive environment of continuous and unpredictable change by reacting quickly and effectively to changing markets driven by customer designed products and services Critical to successfully accomplishing AM are a few enabling technologies such as the standard for the exchange of products STEP concurrent engineering virtual manufacturing component based hierarchical shop floor control system information and communication infrastructure etc The scope of the book is to present the undergraduate and graduate students senior managers and researchers in manufacturing systems design and management industrial engineering and information technology with the conceptual and theoretical basis for the design and implementation of AMS Also the book focuses on broad policy directives and plans of agile manufacturing that guide the monitoring and evaluating the manufacturing strategies and their performance A problem solving approach is taken throughout the book emphasizing the context of agile manufacturing and the complexities to be addressed

An Integrated Approach in the Design of Cellular Manufacturing Systems for Dynamic Production Requirements Fantahun Melaku Defersha, 2006

Planning, Design, and Analysis of Cellular Manufacturing Systems A.K. Kamrani, H.R. Parsaei, D.H. Liles, 1995-04-11 Leading researchers in the field of cellular manufacturing systems from academia and industry have contributed to this volume The book aims to report the latest developments and address the central issues in the design and implementation of cellular manufacturing systems Cellular Manufacturing CM is one of the major concepts used in the design of flexible manufacturing systems CM also known as group production or family programming can be described as a manufacturing technique that produces families of parts within a single line or cell of machines The first part of the book describes various techniques for design and modeling of cellular manufacturing systems

The second part is concerned with performance measure and analysis followed by a section which presents the applications of artificial intelligence and computer tools in cellular manufacturing systems *Manufacturing System* Faieza Abdul Aziz,2012-05-16 This book attempts to bring together selected recent advances tools application and new ideas in manufacturing systems Manufacturing system comprise of equipment products people information control and support functions for the competitive development to satisfy market needs It provides a comprehensive collection of papers on the latest fundamental and applied industrial research The book will be of great interest to those involved in manufacturing engineering systems and management and those involved in manufacturing research *Artificial Intelligence in Mechanical and Industrial Engineering* Kaushik Kumar,Divya Zindani,J. Paulo Davim,2021-06-20 Artificial Intelligence in Mechanical and Industrial Engineering offers a unified platform for the dissemination of basic and applied knowledge on the integration of artificial intelligence within the realm of mechanical and industrial engineering The book covers the tools and information needed to build successful careers and a source of knowledge for those working with AI within these domains The book offers a systematic approach to explicate fundamentals as well as recent advances It incorporates various case studies for major topics as well as numerous examples It will also include real time intelligent automation and associated supporting methodologies and techniques and cover decision support systems as well as applications of Chaos Theory and Fractals The book will give scientists researchers instructors students and practitioners the tools and information needed to build successful careers and to be an impetus to advancements in next generation mechanical and industrial engineering domains

Design and Management of Manufacturing Systems Arkadiusz Gola,2021-09-02 Although the design and management of manufacturing systems have been explored in the literature for many years now they still remain topical problems in the current scientific research The changing market trends globalization the constant pressure to reduce production costs and technical and technological progress make it necessary to search for new manufacturing methods and ways of organizing them and to modify manufacturing system design paradigms This book presents current research in different areas connected with the design and management of manufacturing systems and covers such subject areas as methods supporting the design of manufacturing systems methods of improving maintenance processes in companies the design and improvement of manufacturing processes the control of production processes in modern manufacturing systems production methods and techniques used in modern manufacturing systems and environmental aspects of production and their impact on the design and management of manufacturing systems The wide range of research findings reported in this book confirms that the design of manufacturing systems is a complex problem and that the achievement of goals set for modern manufacturing systems requires interdisciplinary knowledge and the simultaneous design of the product process and system as well as the knowledge of modern manufacturing and organizational methods and techniques *Industrial Engineering in the Digital Disruption Era* Fethi Calisir,Orhan Korhan,2020-03-16 This book gathers extended versions of the

best papers presented at the Global Joint Conference on Industrial Engineering and Its Application Areas GJCIE held on September 23 2019 in Gazimagusa North Cyprus Turkey It covers a wide range of topics including decision analysis supply chain management systems modelling and quality control Further special emphasis is placed on the state of the art and the challenges of digital disruption as well as effective strategies that can be used to change organizational structures and eliminate the barriers that are keeping industries from taking full advantage of today's digital technologies

Computational Optimization in Engineering Hossein Peyvandi, 2017-04-26 The purpose of optimization is to maximize the quality of lives productivity in time as well as interests Therefore optimization is an ongoing challenge for selecting the best possible among many other inferior designs For a hundred years in the past as optimization has been essential to human life several techniques have been developed and utilized Such a development has been one of the long lasting challenges in engineering and science and it is now clear that the optimization goals in many of real life problems are unlikely to be achieved without resource for computational techniques The history of such a development in the optimization techniques starts from the early 1950s and is still in progress Since then the efforts behind this development dedicated by many distinguished scientists mathematicians and engineers have brought us today a level of quality of lives This book concerns with the computational optimization in engineering and techniques to resolve the underlying problems in real life The current book contains studies from scientists and researchers around the world from North America to Europe and from Asia to Australia

International Journal of Manufacturing Technology and Management, 2002 Applied Mechanics Reviews, 1995 *Proceedings of the 13th International Conference on Production Research* E. M. Dar-El, Reuven Karni, Yale T. Herer, 1995 *International Journal of Business Performance Management*, 2004 An Investigation of Labor Flexibility in Cellular Manufacturing Systems Viviana I. Cesani, 1998 **Modeling and Analysis of Manufacturing Systems** Ronald G. Askin, Charles R. Standridge, 1993-01-18 Manufacturing models Assembly lines reliable serial systems Transfer lines and general serial systems Shop scheduling with many products Flexible manufacturing systems Machine setup and operation sequencing Material handling systems Warehousing storage and retrieval systems General manufacturing systems analytical queueing models General manufacturing systems empirical simulation models *Advances in Manufacturing Systems* George Chryssolouris, 1990 *Manufacturing Processes for Engineering Materials* Serope Kalpakjian, Steven R. Schmid, 2008 This comprehensive up to date text has balance coverage of the fundamentals of materials and processes its analytical approaches and its applications in manufacturing engineering **Journal of Engineering for Industry**, 1988

Facilities Planning James A. Tompkins, 2003 Introducing various contemporary practices this book shows how to approach facilities planning with precision It guides the reader through each step in the planning process from defining requirements to developing alternative material handling techniques and manufacturing waterhouse operations to selecting and evaluating facilities plans

Delve into the emotional tapestry woven by Emotional Journey with in Dive into the Emotion of **Cellular Manufacturing Systems An Integrated Approach** . This ebook, available for download in a PDF format (PDF Size: *), is more than just words on a page; itis a journey of connection and profound emotion. Immerse yourself in narratives that tug at your heartstrings. Download now to experience the pulse of each page and let your emotions run wild.

Cellular Manufacturing Systems An Integrated Approach Introduction

In today's digital age, the availability of Cellular Manufacturing Systems An Integrated Approach books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Cellular Manufacturing Systems An Integrated Approach books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Cellular Manufacturing Systems An Integrated Approach books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Cellular Manufacturing Systems An Integrated Approach versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Cellular Manufacturing Systems An Integrated Approach books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Cellular Manufacturing Systems An Integrated Approach books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Cellular Manufacturing Systems An Integrated Approach books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and

technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Cellular Manufacturing Systems An Integrated Approach books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Cellular Manufacturing Systems An Integrated Approach books and manuals for download and embark on your journey of knowledge?

FAQs About Cellular Manufacturing Systems An Integrated Approach Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Cellular Manufacturing Systems An Integrated Approach is one of the best book in our library for free trial. We provide copy of Cellular Manufacturing Systems An Integrated Approach in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Cellular Manufacturing Systems An Integrated Approach. Where to download Cellular Manufacturing Systems An Integrated Approach online for free? Are you looking for Cellular Manufacturing Systems An Integrated Approach PDF? This is definitely going to save you time and cash in something you should think about.
