CHEMOTHERAPY HEALS CANCER AND THE WORLD IS FLAT

First allopathy, and then biological therapies?

Why do oncologists know so
little about successful cancer therapies?

Are there real alternatives to chemotherapy?

How can a person help, when everyone says
that there is nothing more that can be done?

Chemotherapy Heals Cancer And The World Is Flat:

Education of Cancer Healing Vol. VIII - Martyrs Peter Havasi, **The Cancer Odyssey** Margaret Brennan Bermel, MBA, 2011-03-10 Chemotherapy is the greatest fraud ever perpetrated upon the American public This statement must reach the public consciousness The Big Pharma FDA complex must be exposed as a cartel colluding not on curing cancer but on generating profits Does chemotherapy work Maybe sometimes with some specific cancers But very often it does not work The best weapon used in the war on cancer traces its genesis to mustard gas The cancer may die but the collateral damage is the patient's life Approximately 600 000 Americans die each year ostensibly from cancer but are they actually dying from treatment A very provocative question Bill Henderson interviews Margaret Bermel about her new book called The Cancer Odyssey Bill says I really enjoyed your book If everyone would read it BEFORE they get the cancer diagnosis and go into fear orbit the millions of unnecessary cancer deaths would end Here is a direct link where you can listen to it or download it plain mp3 audio file http://webtalkradio.net/s/bill_henderson/task/search/How_to_Live_Cancer_Free/The_Cancer_Odyssey_by_Margaret_Bermel

Vital Signs for Cancer Prevention Xandria Williams, 2012-07-31 Vital Signs for Cancer Prevention suggests that cancer is a two phase process In Phase One you do not yet have and may never have cancer but predisposing factors poor diet and digestion toxins adrenal exhaustion and blood sugar imbalances among others can progressively and cumulatively increase your likelihood of developing it Phase Two begins when the first permanent transformed or cancerous cells form and are not destroyed by your defenses Understanding that the predisposing factors of the first phase lead toward the second can help you prevent the onset of cancer by correcting or minimizing those that apply to you Author Xandria Williams takes a natural therapies approach to healing cancer one based on an understanding of nutrition herbal medicine homoeopathy osteopathy and energy medicine rather than one based strictly on medicine drugs and surgery She sees cancer as a problem that affects the whole body not just the organ or system that is faulty and thus her recommendations are systemic rather than aimed specifically at the tumor Her main emphasis is on a series of scientifically validated tests many of which can be self administered she proposes that provide vital information as to the state of your health She also describes the CA profile a test that can indicate the presence of permanent cancer cells within the first six weeks and possibly years before a tumor can be detected allowing a crucial warning and the time to start an effective recovery program Williams suggests a number of supplements specific foods and other remedies detox procedures stress reduction to correct any of the predisposing factors that could with a final trigger move you from Phase One to Phase Two of the cancer process You will learn how to avoid cancer if you have not yet developed it avoid recurrences if you are in remission and overcome cancer if you have been diagnosed with it

Women's Cancers: Pathways to Healing Giuseppe Del Priore, J. Richard Smith, 2008-12-19 This book is designed as the title Pathways to healing suggests to allow you and your family ready access to all the information you require about your cancer to allow you to understand the different directions your disease may take

It should allow you to realize the breadth of possible outcome from where you stand at the particular point in time when you buy the book or as your disease progresses or not This book has been written for you wherever you are in the disease ranging from cured to those that spend many years living with their cancer to those who sadly die of their cancer One of the greatest privileges working in the field of cancer care is meeting many wonderful people some of who have very kindly written sections of this book We do hope that by reading this book things may be a little clearer for you and at least some worries made lighter

Radiation Oncology for Cure and Palliation R.G. Parker,N.A. Janjan,M.T. Selch,2003-05-08 Given that treatment with curative intent is possible in only one half of cancer victims and that such treatment frequently fails the majority of patients with cancer will require relief of symptoms and signs caused by their disease In this book the specific contribution of radiation therapy to palliation is considered within the context of multidisciplinary management Individual chapters are devoted to palliative radiation therapy for primary tumours and metastases at different sites The management of pain is discussed and chapters are also devoted to end of life care the management of complications of radiation therapy and useful medications This book will prove useful to radiation oncologists and medical students

Chemotherapy Heals Cancer and the World Is Flat Lothar Hirneise,2008-10 In the future there will be two groups of cancer patients Those who have read this book and those who are uninformed For many years Lothar Hirneise has been traveling throughout the world looking for the most successful cancer therapies and he has been explaining to people that there is much more available than just chemotherapy and irradiation Recognized internationally as Europe s leading specialist in this area he describes the results of his years of research in this encyclopedia of non conventional therapies The reader will also learn in detail why so called experts in reality know little about cancer In addition to descriptions of more than 100 cancer therapies and substances used in treating cancer the author also explains which cancer therapies are used allopathically for which types of cancer and what is imperative for a patient to know before he subjects himself to such therapies The 3E program which is based on the analysis of case histories of thousands of people who have survived late stage cancer is also described for the first time Learn why so many people die of cancer and why so many others do not This book not only supplies an incredible amount of information it also helps the cancer patient to find his own way to cure cancer through the active exercises of the 3E program
