**The Power of Comics** Randy Duncan, Matthew J. Smith, 2009-07-01 A comprehensive introduction to the comic arts From the introduction by Paul Levitz If ever there was a medium characterized by its unexamined self expression it s comics For decades after the medium s birth it was free of organized critical analysis its creators generally disinclined to self analysis or formal documentation The average

reader didn't know who created the comics how or why and except for a uniquely destructive period during America's witch hunting of the 1950s didn't seem to care. As the medium has matured however and the creativity of comics began to touch the mainstream of popular culture in many ways curiosity followed leading to journalism and eventually scholarship and so here we are. *The Power of Comics* is the first introductory textbook for comic art studies courses. Lending a broader understanding of the medium and its communication potential it provides students with a coherent and comprehensive explanation of comic books and graphic novels including coverage of their history and their communication techniques research into their meanings and effects and an overview of industry practices and fan culture. Co-authors Randy Duncan and Matthew J. Smith draw on their own years of experience teaching comics studies courses and the scholarly literature across several disciplines to create a text with the following features: Discussion questions for each chapter, Activities to engage readers, Recommended reading suggestions, Over 150 illustrations, Bibliography, Glossary. *The Power of Comics* deals exclusively with comic books and graphic novels. One reason for this focus is that no one text can hope to do justice to both strips and books; there is simply too much to cover. Preference is given to comic books because in their longer form the graphic novel they have the greatest potential for depth and complexity of expression. As comic strips shrink in size and become more inane in content comic books are becoming a serious art form.

*Then This Happened...* Tom Ray, 2017-11-05  
This is a daily cartoon journal I wanted to get back into creating comics and animation. However the day I started we found out my wife has breast cancer. I could have just given up. But I needed to do something to help me deal with the news. So I drew. It's nothing special the first one was just a drawing I did on my phone. But it felt so therapeutic to draw what I felt that day. I kept drawing something each day to help me deal with it. Each day is different like life. We have good days and bad just like everybody. But I enjoy having this outlet to express myself. This book is a collection of our lives and dealing with breast cancer during the first 4 months.

*You Can't Say Boobs on Sunday* Jan Eliot, 1999  
Telling the story of two single moms who are also sisters the humor of *Stone Soup* is of the too real you must be a fly on my wall variety. Readers see themselves and their families in *Stone Soup* and they love it. Anyone who's ever had a family been in a family or known a family will love it.

*Writing and the Digital Generation* Heather Urbanski, 2010-03-08  
Is it true that in this era of digitization and mass media reading and writing are on the decline? In a thought provoking collection of essays and profiles 30 contributors explore what may instead be a rise in rhetorical activity an upsurge due in part to the sudden blurring of the traditional roles of creator and audience in participatory media. This collection explores topics too often overlooked by traditional academic scholarship though critical to an exploration of rhetoric and popular culture including fan fiction reality television blogging online role playing games and Fantasy Football. Both scholarly and engaging this text draws rhetorical studies into the digital age.
