Excerpt from The Control of a Scourge Or How Cancer Is Curable Some of the discoveries in medicine have been so striking in their results as to win favour among the profession and the public at a bound In this category for instance may be named the two great triumphs of the last century I allude to the introduction into surgical practice of anaesthesia and asepsis It did not take long for the unfortunate subject of a surgical operation to realise the transcendental benefits he derived from the abolition of the tortures which such a proceeding entailed upon him nor did it require any effort on the part of the surgeon to convince him of the advantages resulting therefrom Again in the case of the introduction of asepsis although the patient could not be expected to appreciate and never will appreciate to the full its importance to him the profession was not slow to recognise the magnitude of the revolution it meant in surgery and the benefits it was destined to confer on suffering humanity About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
