AutoCAD 2021 VS Code Update Reinaldo N Togores, 2020-04-18 With Release 2021 Autodesk has announced its intention to phase out the Visual LISP Integrated Development Environment VLIDE They are proposing to substitute the old VLIDE with a source code editor developed by Microsoft under the name of VS Code This is an open source program which can be

used for developing programs in almost every known programming language Support for the different languages is provided by installing Extensions available in the VS Code Marketplace This code editor features IntelliSense code completion syntax highlighting bracket matching auto indentation box selection snippets and more It also includes an interactive debugger to step through source code inspect variables view call stacks and execute commands in the console And it has built in support for Source Control Management by installing Git a system for tracking changes in source code during software development Not a bad deal The Visual LISP Integrated Development Environment is an important part of my books Autocad experts Visual LISP and Experto AutoCAD con Visual LISP so an update seems to be required But instead of updating the whole book to the new source code editor proposed by Autodesk I have decided to publish this new one the AutoCAD 2021 VS Code Update so the readers of AutoCAD Expert s Visual LISP can begin to get used to this new environment with all its new features The Visual LISP books will eventually be updated but I believe we should wait to see if this is the definitive solution
