Diffraction Reading Kai Merten, 2021-05-27 Putting the New Materialist figure of diffraction to use in a set of readings in which cultural texts are materially read against their contents and their themes against their readers or against other texts this volume proposes a critical intervention into the practice of reading itself In this book reading and reading methodology are probed for their materiality and re-considered as being inevitably suspended between or diffracted with both matter and discourse The history of literary and cultural reading including poststructuralism and critical theory is revisited in a new light and opened up for a future in which the world and reading are no longer regarded as conveniently separate spheres but recognized as deeply entangled and intertwined *Diffraction Reading* ultimately represents a new reading of reading itself firstly by critiquing the distanced perspective of critical paradigms such as translation and intertextuality in which texts encountered processed or otherwise subdued secondly showing how all literary and cultural readings represent different agential cuts in the world-text-reader constellation which is always both discursive and material and thirdly the volume materializes dynamizes and politicizes the activity of reading by drawing attention to reading's intervention in and co-creation of the world in which we live *Lancelot Brown and the Capability Men* David Brown, Tom Williamson, 2016-08-15

Lancelot Capability Brown is often thought of as the innovative genius who single handedly pioneered a new naturalistic style of landscape design but he was in fact only one of many landscape designers in Georgian England Published to commemorate the three hundredth anniversary of Brown's birth this book casts important new light on his world renowned work his eventful life and the wider and robust world of landscape design in Georgian England David Brown and Tom Williamson argue that Brown was one of the most successful designers of his time working in a style that was otherwise widespread and that it was his skill with this style and not his having invented it that linked his name to it The authors look closely at Brown's design business and the products he offered clients showing that his design packages helped define the era's aesthetic They compare Brown's business to those of similar designers such as the Adam brothers Thomas Chippendale and Josiah Wedgwood and they contextualize Brown's work within the wider contexts of domestic planning and the rise of neoclassicism Beautifully illustrated throughout this book celebrates the work of a master designer who was both a product and harbinger of the modern world
