## **Chen Zhen Without Going Internationalized:**

*Chen Zhen Li Qi, 2016-04-01* Chen Zhen 1955 2000 is largely recognized as one of the most important artists of the global art scene. His work thrived from his singular and intense life experience of migrating and working across different continents and cultures. The recent exhibition at the Rockbund Art Museum in Chen's native city of Shanghai reflected on his lifework at once unique and complex, critical and optimistic, and its attempts to provide innovative responses to the diverse challenges of the changing world from the end of the Cold War to the rise of global capitalism and new geopolitical conflicts. Chen proposed to constantly reexamine the realities and histories of what he viewed as an exciting new world full of problems like a giant with an overmuscled body and an exhausted heart. This catalogue presents an art historical angle on Chen Zhen's unique way of questioning his experience of globalization through art. It includes documentation of the eponymous exhibition at Rockbund Art Museum May 30 October 7 2015 along with detailed sketches of both existing and unrealized projects.

*Lansheng Zhang, 2023-02-02* This book is about avant garde art in Shanghai in the 1980s which challenges the narrative in the current discourse on the appearance of contemporary art in China. Offering fresh perspectives and new insights into the art and the artists of this period the book includes critical events in Shanghai that will attract the serious attention of art professionals and collectors. The emergence of the Shanghai art scene in the 1980s mirrors the revitalisation of Shanghai that was tasked to lead China's economic development trajectory onto the world stage. Shanghai with its semi colonial political, economic and cultural history including the strong legacy of the early twentieth century modernist art movement has played a vital role in China's modernisation and presents itself as a unique case in the evolution of contemporary art in China.

**Investment in Economies in Transition** Klaus Meyer, 1998 This in depth analysis of direct investment in transition economies provides not only original insights for economic policy in Central and Eastern Europe but challenges some of the theoretical foundations of the multinational firm. Foreign investment is important in promoting economic growth and development and this book examines the determinants of foreign direct investment under the unique conditions of the transition from central planning to market economies. It begins by reviewing the business environment and the conditions facing foreign investors and assessing the existing statistical and qualitative evidence. Dr Meyer then analyses the theoretical literature and extends this in an empirical analysis investigating the investment decision of firms entering Central and Eastern Europe. The book also critically examines transaction cost theory and the theory of the multinational firm under the special conditions of economic transition. It points to a reorientation of international business research which will need to focus on firms as organizations rather than firms as substitutes for imperfect markets. **Direct Investment in Economies in**

Transition will be essential reading for students and scholars of international business and transition economics. It will provide valuable insights for policymakers within the region about the forces driving foreign investment. 《China, Korea, and Taiwan》, 2006 Essays by Huang Du and Julie M Segraves. **Daily Report**, 1995. **Far Eastern Economic Review**, 1989.
