A Parent's Guide to the Common Core

Schools across America are rolling out new more rigorous curricula in order to meet the demands created by a new set of English and Mathematics standards known nationally as the Common Core State Learning Standards. You can expect to see a number of changes in your child's sixth grade class. In English, students will now read more Informational Texts. This type of passage provides facts and often deals with current events, science, and social studies. In addition, questions posed about these readings will ask students to find evidence and use it to formulate an argument. In order to master new Literacy standards, students will need a larger and stronger vocabulary to allow them to both tackle complex readings and write acceptable arguments. In Mathematics, students will spend more time developing their understanding of specific and important math concepts. Students will be expected to both demonstrate understanding of each topic and apply their mathematical skills to real world situations.
