The Witch Studies Reader Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asimwe Bernadette Barton Ethel Brooks Shelina Brown Ruth Charnock Soma Chaudhuri Carolyn Chernoff Saira Chhibber Simon Clay Krystal Cleary Adrianna L Ernstberger Tina Escaya Laurie Essig Marcelitte Failla D Ferrett Marion Goldman Jaime Hartless Margaretha Haughwout Patricia Humura Apoorvaa Joshi Govind Kelkar Oliver Kelhammer Ay a Kurto lu Helen Macdonald Isabel Machado Brandy Renee McCann Dev Nathan Mary Jo Neitz Amy Nichols Belo Allison or AP Pierce Emma Quilty Anna Rogel Karen Schaller Jacquelyn Marie Shannon Shashank Shekhar Sinha Gabriella V Smith Nathan Snaza Shannon Hughes Spence Eric Steinhart Morena Tartari Nicole Trigg Katie Von Wald Tushabe wa Tushabe Jane Ward

Witchcraft and Demonology in Hungary and Transylvania Gábor Klaniczay, Éva Pócs, 2017-11-29 This book provides a selection of studies on witchcraft and demonology by those involved in an interdisciplinary research group begun in Hungary thirty years ago They examine urban and rural witchcraft conflicts from early modern times to the present from a region hitherto rarely taken into consideration in

witchcraft research Special attention is given to healers midwives and cunning folk including archaic sorcerer figures such as the *llos* whose ambivalent role is analysed in social legal medical and religious contexts This volume examines how waves of persecution emerged and declined and how witchcraft was decriminalised Fascinating case studies on vindictive witch hunters quarrelling neighbours rivalling midwives cunning shepherds weather magician impostors and exorcist Franciscan friars provide a colourful picture of Hungarian and Transylvanian folk beliefs and mythologies as well as insights into historical and contemporary issues *Witchcraft in Continental Europe* Brian P. Levack, 2013-10-28 Witchcraft and magical beliefs have captivated historians and artists for millennia and stimulated an extraordinary amount of research among scholars in a wide range of disciplines This new collection from the editor of the highly acclaimed 1992 set *Articles on Witchcraft Magic and Demonology* extends the earlier volumes by bringing together the most important articles of the past twenty years and covering the profound changes in scholarly perspective over the past two decades Featuring thematically organized papers from a broad spectrum of publications the volumes in this set encompass the key issues and approaches to witchcraft research in fields such as gender studies anthropology sociology literature history psychology and law This new collection provides students and researchers with an invaluable resource comprising the most important and influential discussions on this topic A useful introductory essay written by the editor precedes each volume *Witch-hunting in Scotland* Brian P. Levack, 2008 Shortlisted for the 2008 Katharine Briggs Award *Witch Hunting in Scotland* presents a fresh perspective on the trial and execution of the hundreds of women and men prosecuted for the crime of witchcraft an offence that involved the alleged practice of maleficent magic and the worship of the devil for inflicting harm on their neighbours and making pacts with the devil Brian P. Levack draws on law politics and religion to explain the intensity of Scottish witch hunting Topics discussed include the distinctive features of the Scottish criminal justice system the use of torture to extract confessions the intersection of witch hunting with local and national politics the relationship between state building and witch hunting and the role of James VI Scottish Calvinism and the determination of zealous Scottish clergy and magistrates to achieve a godly society This original survey combines broad interpretations of the rise and fall of Scottish witchcraft prosecutions with detailed case studies of specific witch hunts *Witch Hunting in Scotland* makes fascinating reading for anyone with an interest in witchcraft or in the political legal and religious history of the early modern period *The Academy and Literature* Charles Edward Cutts Birch Appleton, Charles Edward Doble, James Sutherland Cotton, Charles Lewis Hind, William Teignmouth Shore, Alfred Bruce Douglas, Ellis Ashmead-Bartlett, Thomas William Hodgson Crosland, 1871

The Academy, 1898 *The Academy and Literature*, 1903 *Multidisciplinary Approach in Health: New Strategies from the Perspective of Education, Management, Culture and Gender* Sagrario Gomez-Cantarino, María Idoia Ugarte-Gurrutxaga, Beatriz Oliveira Xavier, MCarmen Solano-Ruiz, 2024-05-24 Gender and culture are the foundations of individual and social identity which influence the environment at all levels of health care According to historical and cultural

patterns people learn to relate to their bodies. This situation reveals contrasts in the way bodily functions and thus health and illness are conceptualized, used and valued. In fact, a person's sexuality covers a particularly conflictive field as it focuses on aspects defined as basic and constructed according to sociocultural concepts and therefore modifiable. Therefore, health promotion understood as a proposal for empowering individuals, families and communities about their perception of their life and health within their cultural, ethnic, religious and care context and influenced by their state of health becomes important. To this end, we propose the adoption of transdisciplinary approaches that prioritize relational analysis studies in the context of health scenarios for the development of public policies framed in the culture of care, its evolution, economy and management highlighting the gender perspective.

Wealth, Health, and Hope in African Christian Religion Stan Chu Ilo, 2017-11-22 Wealth, Health and Hope in African Christian Religion offers a portrait of how contending narratives of modernity in both church and society play out in Africa today through the agency of African Christian religion. It explores the identity and features of African Christian religion and the cultural forces driving the momentum of Christian expansion in Africa as well as how these factors are shaping a new African social imagination especially in providing answers to the most challenging questions about poverty, wealth, health, human and cosmic flourishing. It offers the academy a good road map for interpreting African Christian religious beliefs and practices today and into the future.
