

A large, dark, textured alien head with a mechanical, ribbed mouth is positioned at the top of the frame, looking down. A human man with a shocked expression is being held by a large alien hand, which is gripping his face. The background shows a landscape with a tall, thin alien tower in the distance.

Building Bridges between Cultures in Ian McDonald's Science Fiction Jerome Winter,2025-09-18 This book is a career long retrospective of the Irish writer Ian McDonald and his complex compelling representation of our contemporary global condition Ian McDonald is a celebrated writer within the science fiction community whose rich and urgent body of works span over a quarter of a century The author claims McDonald s work functions as vital troubling allegories which both refuse the Orientalist euphemizing of colonial atrocities while still at the same time envisioning a transformative global alterity seeking an ethical and political embrace of systematically silenced subaltern voices in the neoliberal world system The book follows McDonald as the globe trotting writer travels from Ireland to Kenya to India to Brazil to Turkey to a proliferating multiverse and beyond Along the way the author analyzes McDonald s science fiction as a salient contribution to the flourishing cosmopolitan literature of postcolonial developing nations at the crossroads of the global imaginary

Science-fiction Studies ,2007 **The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film** Michael Frank,2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction arguing that both are informed by and contribute to the cultural imaginary of terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from The Dynamiter and The Secret Agent through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines The Cultural Imaginary of Terrorism will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies

Do Metaphors

Dream of Literal Sleep? Seo-Young Chu, 2011-01-15 In culture and scholarship science fictional worlds are perceived as unrealistic and altogether imaginary Seo Young Chu offers a bold challenge to this perception of the genre arguing instead that science fiction is a form of high intensity realism capable of representing non imaginary objects that elude more traditional realist modes of representation Powered by lyric forces that allow it to transcend the dichotomy between the literal and the figurative science fiction has the capacity to accommodate objects of representation that are themselves neither entirely figurative nor entirely literal in nature Chu explores the globalized world cyberspace war trauma the Korean concept of han and the rights of robots all as referents for which she locates science fictional representations in poems novels music films visual pieces and other works ranging within and without previous demarcations of the science fiction genre In showing the divide between realism and science fiction to be illusory Do Metaphors Dream of Literal Sleep sheds new light on the value of science fiction as an aesthetic and philosophical resource one that matters more and more as our everyday realities grow increasingly resistant to straightforward representation
