Alien Invasion Fiction Blueprint:

Science Fiction Film Keith M. Johnston, 2013-05-09 Science Fiction Film develops a historical and cultural approach to the genre that moves beyond close readings of iconography and formal conventions It explores how this increasingly influential genre has been constructed from disparate elements into a hybrid genre Science Fiction Film goes beyond a textual exploration of these films to place them within a larger network of influences that includes studio politics and promotional discourses The book also challenges the perceived limits of the genre it includes a wide range of films from canonical SF such as *Le voyage dans la lune* *Star Wars* and *Blade Runner* to films that stretch and reshape the definition of the genre This expansion of generic focus offers an innovative approach for students and fans of science fiction alike
