Alien Invasion Fiction Primer:

The Alien Invasion William Henry Wilkins, 1892 **A Primer of Religion** William John Oldfield, 1906 **The Routledge Companion to Science Fiction** Adam Roberts, 2009-03-30 The Routledge Companion to Science Fiction is a comprehensive overview of the history and study of science fiction. It outlines major writers, movements, and texts in the genre, established critical approaches, and areas for future study. Fifty-six entries by a team of renowned international contributors are divided into four parts which look in turn at history, an integrated chronological narrative of the genre's development, theory, detailed accounts of major theoretical approaches including feminism, Marxism, psychoanalysis, cultural studies, postcolonialism, posthumanism, and utopian studies, issues and challenges, and anticipates future directions for study in areas as diverse as science studies, music, design, environmentalism, ethics, and alterity. Subgenres, a prismatic view of the genre, tracing themes and developments within specific subgenres. Bringing into dialogue the many perspectives on the genre. The Routledge Companion to Science Fiction is essential reading for anyone interested in the history and the future of science fiction and the way it is taught and studied. Historical Dictionary of Science Fiction Cinema M. Keith Booker, 2020-06-15 In the years since Georges Méliès' *Le voyage dans la lune* (A Trip to the Moon) was released in 1902, more than 1000 science fiction films have been made by filmmakers around the world. The versatility of science fiction cinema has allowed it to expand into a variety of different markets, appealing to age groups from small children to adults. The technical advances in filmmaking technology have enabled a new sophistication in visual effects. This second edition of *Historical Dictionary of Science Fiction Cinema* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on important personalities, films, companies, techniques, themes, and subgenres. This book is an excellent resource for students, researchers, and anyone wanting to know more about science fiction cinema. **Chinese Science Fiction** Hua Li, 2021-06-22 The late 1970s to the mid 1980s, a period commonly referred to as the post-Mao cultural thaw, was a key transitional phase in the evolution of Chinese science fiction. This period served as a bridge between science popularization, science fiction of the 1950s and 1960s, and New Wave Chinese science fiction from the 1990s into the twenty-first century. *Chinese Science Fiction during the Post-Mao Cultural Thaw* surveys the field of Chinese science fiction and its multimedia practice, analysing and assessing science fiction works by well-known writers such as Ye Yonglie, Zheng Wenguang, Tong Enzheng, and Xiao Jianheng, as well as the often overlooked tech science fiction writers of the post-Mao thaw. Exploring the socio-political and cultural dynamics of science-related Chinese literature during this period, Hua Li combines close readings of original Chinese literary texts with literary analysis informed by scholarship on science fiction as a genre, Chinese literary history, and media studies. Li argues that this science fiction of the post-Mao thaw began its rise as a type of government-backed literature, yet it often stirred up controversy and received pushback as a contentious and boundary-breaking genre. Topically structured and interdisciplinary in scope, *Chinese Science Fiction during the Post-Mao Cultural*
