*Reconstructing the "Uni-versity"* Harvey J. Graff, 2025-09-14 Slogans myths and isolated anecdotes are inadequate substitutes for documented history and contextual understanding. Literature on the history of higher education is dominated by ahistorical and contextually ignorant slogans. Seldom acknowledged in discussions of the decline or failure of the modern university is 1 how long it has been going on at least since the 1960s and 2 universities own complicity in this long complicated and contradictory process. Myths intertwine inseparably with slogans to echo yet another lost cause. Our collective as well as individual pasts provide essential lessons if we know how to read and learn from them. More complicated is imagining a plausible better future for universities. In *Reconstructing the Uni-versity: From the Ashes of the Mega and Multi-versity to the Futures of Higher Education* Harvey J. Graff bringing experience from over 50 years as a professor provides an accurate history of higher education redefining the issues and terms to establish a new agenda.

### **Changing the Playbook**

Howard P. Chudacoff, 2015-12-15 In *Changing the Playbook* Howard P. Chudacoff delves into the background and what ifs surrounding seven defining moments that redefined college sports. These changes involved fundamental issues race and gender profit and power that reflected societal tensions and in many cases remain pertinent today. The failed 1950 effort to pass a Sanity Code regulating payments to football players, the thorny racial integration of university sports programs, the boom in television money, the 1984 Supreme Court decision that settled who could control skyrocketing media revenues, Title IX's transformation of women's athletics, the cheating, eligibility, and recruitment scandals that tarnished college sports in the 1980s and 1990s, the ongoing controversy over paying student athletes a share of the enormous moneys harvested by schools and athletic departments. A thought-provoking journey into the whos and whys of college sports history. *Changing the Playbook* reveals how the turning points of yesterday and today will impact tomorrow.

### **Speed Capital** Brian M.

Ingrassia, 2024-02-06 How a speedway became a legendary sports site and sparked America's car culture. The 1909 opening of the Indianapolis Motor Speedway marked a foundational moment in the history of automotive racing. Events at the famed track and others like it also helped launch America's love affair with cars and an embrace of road systems that transformed cities and shrunk perceptions of space. Brian Ingrassia tells the story of the legendary oval's early decades. This story revolves around Speedway cofounder and visionary businessman Carl Graham Fisher whose leadership in the building of the transcontinental Lincoln Highway and the iconic Dixie Highway had an enormous impact on American mobility. Ingrassia looks at the Speedway's history as a testing ground for cars and airplanes, its multiple close brushes with demolition, and the process by which racing became an essential part of the Golden Age of Sports. At the same time he explores how the track's past reveals the potent links between sports capitalism and the selling of nostalgia, tradition, and racing legends.

### **College Sports** Eric A. Moyen, John R. Thelin, 2024-11-26

A bold and foundational history of the inception and evolution of intercollegiate athletics in the United States. In *College Sports* historians Eric A. Moyen and John R. Thelin tell the intriguing

story of the success and excess of American college sports from their inception to today Arguing that the modern American university's structure spurred the growth of big time sports Moyen and Thelin also highlight the treatment of marginalized groups in athletics and the role that commercialization and the media have played in shaping college sports Using a wealth of secondary resources archival records newspaper articles and oral histories Moyen and Thelin offer a chronological account of the popularity success and continued challenges of college sports Most scholarship has portrayed athletics as an anomaly within higher education but history reveals that college sports enjoy a symbiotic relationship with universities Reform and a return to a purely amateur model have rarely been a compelling option for those institutions that are successful in commercialized big time college sports At the same time most student athletes compete in a very different model And despite their progressive posturing colleges have been slow to fully adopt civil rights and social justice issues When full participation was finally extended to women and minorities it generally meant a move away from the amateur model into a commercial enterprise By examining key events at specific universities athletic conferences and the NCAA Moyen and Thelin trace how the media and sports marketing have created an incredibly successful financial model for schools in big time conferences Yet this model has also created a precarious fiscal situation for hundreds of other institutions This provocative and refreshing take on sports in American universities provides the context in which to understand and improve upon the current landscape of intercollegiate athletics

**NFL Football** Richard C. Crepeau,2020-09-14 The new NFL Centennial Edition A multi billion dollar entertainment empire the National Football League is a coast to coast obsession that borders on religion and dominates our sports mad culture But today's NFL also provides a stage for playing out important issues roiling American society The updated and expanded edition of NFL Football observes the league's centennial by following the NFL into the twenty first century where off the field concerns compete with touchdowns and goal line stands for headlines Richard Crepeau delves into the history of the league and breaks down the new era with an in depth look at the controversies and dramas swirling around pro football today Tensions between players and Commissioner Roger Goodell over collusion drug policies and revenue The firestorm surrounding Colin Kaepernick and protests of police violence and inequality Andrew Luck and others choosing early retirement over the threat to their long term health Paul Tagliabue's role in covering up information on concussions The Super Bowl's evolution into a national holiday Authoritative and up to the minute NFL Football continues the epic American success story
