Changing Values, Persisting Cultures Loek Halman, 2008 **Changing Values, Persisting Cultures** Loek

Halman, 2008 *The International Social Survey Programme 1984-2009* Max Haller, Roger Jowell, Tom W Smith, 2009-09-11

The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations. The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe. Starting in 1984 with five nations, it now encompasses forty-five nations spread over five continents, each administering an identical annual survey to a random sample of their population. Analyses of the data or descriptions of the methodology already appear in over 3,000 publications. This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents, nations, and over time. Subjects range from inequality and the role of the state, ethnic national and global identities, the changing relevance of religion, beliefs and practices, gender roles, family values, and work orientations, household and society. Some chapters focus on methodological issues, others focus on substantive findings. This book sets new standards for cross-cultural research.

Democracy under scrutiny Ursula J. van Beek, 2010-05-19

Values elites and ordinary people. This book reveals the diverse worlds of history, civic culture, and values of South Africa, South Korea, Chile, Poland, Turkey, Germany, and Sweden. It explores the similarities and contrasts between the values of the elites and the ordinary people. Written from various disciplinary perspectives and offering both empirical evidence and insiders' knowledge, this book is bound to interest a wide variety of readers. The study on which the book reports was in the main based on analyses of value orientations of the parliamentary and media elites and those of the ordinary citizens. The data for the elites were obtained from surveys conducted for the purposes of the study; the data for the general population were drawn from the latest World Values Surveys. The volume is divided into two parts. The first part, entitled 'Theory and history', considers the quality of democracy in the context of the historical and cultural heritage of the seven countries, their civic culture, and notions of citizenship and their constitutions as foundations of the democratic political order. The second part of the book, entitled 'Theory and empiricism', assesses the quality of democracy by means of comparative analyses of the convergence and divergence in value orientations of the elites and the masses, both within each case and across all the seven cases.

Generational Tensions and Solidarity Within Advanced Welfare States Asgeir Falch-Eriksen, Marianne Takle, Britt Slagvold, 2021-09-12

This book explores generation as both a reference to family or kinship structures and a reference to cohorts or age sets. The principal objective is branching out this two-part concept through studies of tensions and solidarity within and between generations of advanced and robust welfare states. Answering key questions using multiple disciplinary approaches, the book considers how generations challenge advanced and robust welfare states, how new and young generations are affected by living in an advanced welfare state, with older generations, how tensions or solidarity are

understood when facing challenges and what the key characteristics are of certain generation types It contributes to the development of a more comprehensive generation approach within social sciences by developing the concept of generation by exploring different challenges to the welfare state such as migration digitalization environmental damages demands for sustainability and marginalization Highlighting the escalating tensions and altered versions of solidarity between generations this book shows how a comprehensive concept of a generation can create new insights into how we collectively coordinate and resolve challenges through the welfare state It will be of interest to all scholars and students of social policy sociology political science and social anthropology *The Europeanization of Turkey* Ali Tekin,Aylin Güney,2015-04-17 Given the recent inertia in EU Turkey relations in the midst of regional economic and political upheavals Europeanization of Turkey takes a step back from the latest headlines to provide a comprehensive stocktaking of EU inspired reform efforts in Turkey with an eye to understanding how effective or ineffective EU conditionality has been in making Turkey s key political institutions actors and culture more compatible with European norms In addition to contributing to the theoretical literature on the differential effects of Europeanization on the domestic realm this volume also expands the existing scope of research to include questions of how socialization through the accession process operates under high levels of uncertainty about the attainability of European Union membership Applying a uniform analytical framework and the methodology of process tracing the authors in this volume assess the nature and degree of change that has occurred in various dimensions of Turkish domestic polity and politics in the context of Turkey s post 1999 EU accession Engaging with important practical issues such as whether potential membership in the EU has brought about positive change in which areas this change is manifest and how significant this change has been this book is an essential resource for students scholars and researchers seeking to understand contemporary relations between the EU and Turkey **Culture Matters in Russia—and Everywhere**
