Changing Worlds Vietnams Transition From Cold War To Globalization:

Changing Worlds David W.P. Elliott, 2012-09-03 For the most of the twentieth century the country of Vietnam has served as a symbol of the bipolar system of rival ideological blocs that characterized the Cold War As the conflict over communism waned in the 1980s Vietnam faced the tough task of remaking itself as nation in the eyes of its people and of the world In Changing Worlds David W P Elliot a participant in the Aspen Institute s U S Vietnam Dialogue who has spent the past forty years working closely with the people and government of Vietnam chronicles the evolution of the Vietnamese state as we know it today

Changing Worlds David W.P. Elliott, 2012-10-11 Throughout the entire Cold War era Vietnam served as a grim symbol of the ideological polarity that permeated international politics But when the Cold War ended in 1989 Vietnam faced the difficult task of adjusting to a new world without the benefactors it had come to rely on In Changing Worlds David W P Elliott who has spent the past half century studying modern Vietnam chronicles the evolution of the Vietnamese state from the end of the Cold War to the present When the communist regimes of Eastern Europe collapsed so did Vietnam s model for analyzing and engaging with the outside world Fearing that committing fully to globalization would lead to the collapse of its own system the Vietnamese political elite at first resisted extensive engagement with the larger international community Over the next decade though China s rapid economic growth and the success of the Asian tiger economies along with a complex realignment of regional and global international relations reshaped Vietnamese leaders views In 1995 Vietnam joined the Association of Southeast Asian Nations ASEAN its former adversary and completed the normalization of relations with the United States By 2000 Vietnam had taken the plunge and opted for greater participation in the global economic system Vietnam finally joined the World Trade Organization in 2006 Elliott contends that Vietnam s political elite ultimately concluded that if the conservatives who opposed opening up to the outside world had triumphed Vietnam would have been condemned to a permanent state of underdevelopment Partial reform starting in the mid 1980s produced some success but eventually the reformers argument that Vietnam s economic potential could not be fully exploited in a highly competitive world unless it opted for deep integration into the rapidly globalizing world economy prevailed Remarkably deep integration occurred without Vietnam losing its unique political identity It remains an authoritarian state but offers far more breathing space to its citizens than in the pre reform era Far from being absorbed into a Western inspired development model globalization has reinforced Vietnam s distinctive identity rather than eradicating it The market economy led to a revival of localism and familism which has challenged the capacity of the state to impose its preferences and maintain the wartime narrative of monolithic unity Although it would be premature to talk of a genuine civil society today s Vietnam is an increasingly pluralistic community Drawing from a vast body of Vietnamese language sources Changing Worlds is the definitive account of how this highly vulnerable Communist state remade itself amidst the challenges of the post Cold War era

The 'Hidden Curriculum' of Vietnam's English School Textbooks Thi Duyen Phuong, Raf

Vanderstraeten,2024-03-15 This book analyzes the basic ideas and premises underlying the English textbooks used at the higher secondary school level in Vietnam from the 1980s to the present from a sociological perspective The dataset upon which this book builds consists of a collection of 18 textbooks which belong to five sets of locally developed English textbooks for grade 10 to grade 12 students These series were used in all public schools from the mid 1980s to the present During this period schooling expanded rapidly in Vietnam while English also gained increasing prominence within the school system This book examines the curricular content of these textbooks and presents a long term analysis of the hidden curricular content in light of Vietnam s recent history and its government s concerns about national identity **China and Its Small Neighbors**

Sung Chull Kim,2023-03-01 In *China and Its Small Neighbors* Sung Chull Kim examines the political implications of the economic asymmetry between China and its small neighbors part of wider changes in international relations brought about by the rise of China While being critical of the current trend that focuses on the China U S rivalry alone Kim argues that a microanalysis of China s advances toward its neighbors is a guide to understanding the trajectory of China s expanding influence and transitions in world politics more broadly Economic asymmetry as seen in trade concentration non transparency and reliance on bilateral aid has made China s small neighbors vulnerable on the political front thus generating potential threats to their sovereignty and independence Because China has the upper hand in the bilateral relationships these weak states practice dual core hedging as a strategy for survival They hedge on China for expected economic benefits and at the same time hedge against their powerful neighbor to mitigate the risks involved in that hedging on Each small state s mode of hedging depends on its degree of vulnerability and its availability of policy instruments such as multilateral institutions and bilateral partnerships with extra regional powers *From Transition to Globalization* József Bayer,Jody Jensen,2007

Scott, 1998 In the political landscape emerging from the end of the Cold War making U S foreign policy has become more difficult due in part to less clarity and consensus about threats and interests In *After the End* James M Scott brings together a group of scholars to explore the changing international situation since 1991 and to examine the characteristics and patterns of policy making that are emerging in response to a post Cold War world These essays examine the recent efforts of U S policymakers to recast the roles interests and purposes of the United States both at home and abroad in a political environment where policy making has become increasingly decentralized and democratized The contributors suggest that foreign policy leadership has shifted from White House and executive branch dominance to an expanded group of actors that includes the president Congress the foreign policy bureaucracy interest groups the media and the public The volume includes case studies that focus on China Russia Bosnia Somalia democracy promotion foreign aid and NAFTA Together these chapters describe how policy making after 1991 compares to that of other periods and suggest how foreign policy will develop in the future This collection provides a broad balanced evaluation of U S foreign policy making in the post Cold War setting for scholars teachers and students of U S foreign policy political science history and international studies Contributors Ralph G Carter Richard Clark A Lane Crothers I M Destler Ole R Holsti Steven W Hook Christopher M Jones James M McCormick Jerel Rosati Jeremy Rosner John T Rourke Renee G Scherlen Peter J Schraeder James M Scott Jennifer Sterling Folker Rick Travis Stephen Twing
