Read page 380 and additional information below. Highlight major cues, and answer the question that follows.

The Gilded Age, which spanned the final three decades of the nineteenth century, was one of the most dynamic, contentious, and volatile periods in American history. America's industrial economy exploded, generating unprecedented opportunities for individuals to build great fortunes but also leaving many farmers and workers struggling merely for survival. Overall national wealth increased more than fivefold, a staggering increase, but one that was accompanied by what many saw as an equally staggering disparity between the rich and the poor. Industrial giants like Andrew Carnegie and John D. Rockefeller revolutionized business and ushered in the modern corporate economy, but also, ironically, sometimes destroyed free-market economic competition in the process. Record numbers of citizens voted in national elections, but the politicians they voted for were often lackluster figures who turned a blind eye to the public interest. It was, as Dickens might have said, the best of times and the worst of times. But even that Dickensian understanding of the Gilded Age isn't quite right. It's not enough to say that the Gilded Age was a time of high highs and low lows; the highs and lows were actually often deeply intertwined parts of the exact same developments. In other words, the highs often were the lows, and vice versa. In the Gilded Age, every dark cloud had its silver lining... and every silver lining had its dark cloud. For more than a hundred years, critics have been ripping the business strategies that allowed big industrialists to build powerful monopolies—but those much-maligned monopolies brought desperately needed order to America's immature economic system. Many have also long resented the immense fortunes of personal wealth that a handful of big businessmen were able to acquire—but that wealth paid
