Rethinking Money and Capital: New Economics for QE, Stimulus, Negative Interest, and Cryptocurrencies Swapnil Pawar, While money and capital occupy a centre stage in our daily lives we rarely pause to think about their real nature Contrary to an intuitive and unstated belief of most people money and capital are not resources but simply bidding tokens This rethinking of their nature can free the collective energies of human race from several artificially imposed constraints that hold no water upon closer scrutiny The analysis in this book leads to many counterintuitive conclusions For example the fiscal deficit is the counterpart of the demand for net savings by individuals and not an evil to be battled Inflation is sometimes an indicator of more egalitarian distribution of incomes and not always a scourge that hurts the poor There is a strong case for negative real interest rates on risk free debt The book employs these and several other such inferences into a broad program for reinvigorating our economic policy towards a better life for all Essays in Economics James Tobin,1996 This fourth volume in the series of Nobel laureate James Tobin s classic papers represents his work since 1980 This fourth volume in the series of Nobel laureate James Tobin s classic papers represents his work since 1980 Both national and international views are intermingled among the 36 chapters on macroeconomics and fiscal policy savings stabilization policy international coordination of macroeconomic policy monetary policy and exchange rates Several tributes to colleagues including Walter Heller and Seymour Harris round out the collection
