**The Content and Measurement of the Reading Vocabulary** Sister Mary Irmina, 1927      **Teaching Character**

**Analysis** Jessica A. Jaeger, 2009 Research Questions In what ways will focusing on writing strong assertions about characters using trait words and supporting those assertions with evidence from the text influence students ability to write a character analysis essay 1 To what extent will having students generate a class based list of character trait words engage students in their character analysis writing 2 How will the process of modeling by collaboratively writing a character analysis essay with students in class influence their writing character analysis essays Research Activities Context This research took place in an eighth grade English classroom in an agricultural community in northern California The class was comprised of 21 female students and 10 male students of various ability levels Eight focus students 5 female and 3 male were selected One of the male students was an EL student and one of the female students was RFEP Students were chosen from the Advanced to Basic range as determined by the California STAR test Methods and Data The intervention had two focuses developing precise trait vocabulary and developing strong assertions and support for use in a character analysis essay The entire intervention lasted approximately two months Throughout the intervention numerous activities were implemented to teach students trait vocabulary and effective ways to support a thesis statement These activities included generating a class based list of character traits supporting assertions with specific textual evidence engaging in a debate based on assertions and evidence creating a rubric for a character analysis essay discussing a teacher modeled essay and writing three separate character analysis essays Pre and post intervention achievement data consisted of students essay responses to a character analysis prompt in a timed 50 minute period Essays were analyzed for exactness and accuracy of trait words present in the writing and a well developed and supported thesis statement Students were also given self assessment surveys for pre and post intervention attitude data Observation data were gathered during and after intervention activities in a teacher research journal Results The results of the intervention showed significant student improvement Between the baseline and outcome achievement data sets the scores for thesis and support shifted markedly from Below Basic and Basic to Proficient and Advanced On the baseline data only fourteen students 46% in the target class scored Proficient or Advanced but on the outcome data twenty six students 84% scored in this range Fourteen of those twenty six 54% scored Advanced meaning that over half of the target class wrote essays containing well developed thesis statements that were supported by several textual references From baseline to outcome data the scores for students use of trait vocabulary also showed improvement On the baseline data no students scored Advanced and only five scored Proficient in the vocabulary category The rest of the students scored Basic or Below Basic On the outcome data however no students scored Basic or Below Basic instead scoring Proficient 9 students 29% and Advanced 22 students 71% The significant majority of the class scored Advanced meaning they used appropriate vocabulary and described the character they were analyzing through exact and accurate trait words Students

indication of understanding both character analysis and thesis assertions and support also increased significantly from the baseline to outcome attitude data as well as student confidence levels for writing a character analysis essay For baseline data only 27% of students reported they were confident and no students reported very confident for outcome data 40% of students reported confident and an additional 24% reported very confident Findings indicate that focused instruction that sequences work on skills over time should be used to improve the use of precise character trait vocabulary and the ability to support strong assertions in character analysis essays Grade Eighth Grade Research Methods Writing Samples Writing Assessment Survey Attitude Survey Concepts Observation Field Notes Student Work Curriculum Areas English Language Arts Writing Instructional Approaches Writing Response to Literature Writing Rubrics Modeling Writing Explicit Instruction      **Literacy Assessment and Instructional Strategies** Kathy B.
