Charles Batteux Reduced Single Principle:

The Fine Arts Reduced to a Single Principle Charles Batteux, 2015 The Fine Arts Reduced to a Single Principle 1746 by Charles Batteux was arguably the most influential work on aesthetics published in the 18th century James O Young presents the first complete English translation of the work with full annotations and a comprehensive introduction which illuminate Batteux's continuing philosophical interest

Critical Reflections on Poetry and Painting (2 vols.) Jean-Baptiste Du Bos, 2021-07-15 Jean Baptiste Du Bos Critical Reflections on Poetry and Painting first published in French in 1719 is one of the seminal works of modern aesthetics Du Bos rejected the seventeenth century view that works of art are assessed by reason Instead he believed audience members have sentiments in response to artworks Their sentiments are fainter versions of those they would feel in response to actually seeing what the work of art imitates Du Bos was influenced by John Locke's empiricism and in turn had a major impact on virtually every major eighteenth century contributor to philosophy of art including Voltaire Montesquieu Diderot Rousseau Herder Lessing Mendelssohn Kames Gerard and Hume This is the first modern annotated and scholarly edition of the Critical Reflections in any language

Process and Aesthetics Ondřej Dadejík, Martin Kaplický, Miloš Ševčík, Vlastimil Zuska, 2021-04-01 While Alfred North Whitehead did not dedicate any books or articles to aesthetics specifically aesthetic motifs permeate his entire philosophical opus Despite this aestheticians have devoted little attention to Whitehead most attempts to reconstruct Whitehead's aesthetics have come from process philosophers and even in that context aesthetics has never occupied a central position In this book four scholars of aesthetics provide another angle from which Whiteheadian aesthetics might be reconstructed Paying special attention to the notion of aesthetic experience the authors analyze abstraction versus concreteness immediacy vs mediation and aesthetic contextualism vs aesthetic isolationism For their interpretation of Whiteheadian aesthetics the concepts of creativity and rhythm are crucial Using these concepts the book interprets the motif of the processes by which experience is harmonized the sensation of the quality of the whole and directedness towards novelty The first chapter introduces Whitehead's philosophical method of descriptive generalization This method assumes that every philosophical

system is based on a particular entry point We show that for Whitehead this entry point was aesthetics Chapter Two compares Whitehead and Dewey s philosophies to show that both viewed aesthetic experience in terms of complex rhythms this helps us better understand the differences and the continuities between everyday experience and art Chapter Three compares Whitehead s ideas with those of Henri Bergson showing the way art reveals the form of immediate experience and how the aesthetic experience of art relates to truth The final chapter details the processes that constitute aesthetic experience in a narrower sense analyzing aesthetic experience from the perspective of the types of abstractive processes it involves and the complex types of experience it produces

On Modern Poetry Guido Mazzoni,2022-04-19 Guido Mazzoni tells the story of poetry s revolution in the modern age The chief transformation was the rise of the lyric as it is now conceived a genre in which a first person speaker talks about itself Mazzoni argues that modern poetry embodies the age of the individual and has wrought profound changes in the expectations of readers

Studies on Voltaire and the Eighteenth Century Theodore Besterman,1980 *Studies on Voltaire and the Eighteenth Century* ,1980 **The Future of Aesthetic Experience** Peter Baofu,2007 Contrary to the conventional wisdom held by many Dr Peter Baofu argues that the current popularity of postmodernism in the humanities especially though not exclusively in relation to the arts will not last as it constitutes an aesthetic fad in this day and age of postmodernity This thesis has important implications for understanding beauty ugliness and other aesthetic categories be the era in the past present or future to the extent that the current theoretical debate on aesthetic experience is as much misleading as obsolete The current debate also obscures something more tremendous in the long run in relation to the emergence of what Dr Baofu originally proposes as the great transformations of aesthetic experience in the coming future that humans have never known both here on Earth and later in deep space in accordance to the five theses of his oetransformative theory of aesthetic experience To understand this the book is organized into four major parts i e in relation to nature the mind culture and society

Diderot's Early Philosophical Works Margaret Jourdain,1916 *Literary Criticism* William Kurtz Wimsatt,Cleanth Brooks,1957 Traces literary criticism from its classical origins up to the present

Reluctant Modernity Aleš Debeljak,1998-07-02 Argues that the modern multinational corporation has taken the place of earlier elites in the patronage of art Like in the past a superordinate class decides through sponsorship what art is suitable for the masses and thus mutes art s liberating possibilities Also argues that the postmodern remedy to the situation is mired in an other directedness that seeks to be politically correct and inoffensive and has itself fallen prey to crass commercialization and corporate control Annotation copyrighted by Book News
