Hicks, 2016-04-08 Since the beginning of the twenty first century major Anglophone authors have flocked to a literary form once considered lowbrow genre fiction the post apocalyptic novel Calling on her broad knowledge of the history of apocalyptic literature Hicks examines the most influential post apocalyptic novels written since the beginning of the new millennium including works by Margaret Atwood David Mitchell Cormac McCarthy Jeanette Winterson Colson Whitehead and Paolo Bacigalupi Situating her careful readings in relationship to the scholarship of a wide range of historians theorists and literary critics she argues that these texts use the post apocalyptic form to reevaluate modernity in the context of the new century s political economic and ecological challenges In the immediate wake of disaster the characters in these novels desperately scavenge the scraps of the modern world But what happens to modernity beyond these first moments of salvage In a period when postmodernism no longer defines cultural production Hicks convincingly demonstrates that these writers employ conventions of post apocalyptic genre fiction to reengage with key features of modernity from historical thinking and the institution of nationhood to rationality and the practices of literacy itself

Daglish,2015-01-25 When you play with things that do not belong on earth you are courting with disaster At a lab on the outskirts of Madison Wisconsin Brian accidentally creates a viral mix of overwhelming capacity Sent to Stockholm to a conference so the agency can play with it further he unknowingly spreads it to all the delegates On live television till the reporters themselves succumb civilization is shown falling into a spiral of fear and brutality When the power grids fail the absolute chaos is hidden except that which is outside your own door Finally all hope is gone and the earth falls silent Yet a few survive This story follows a small group in the southern hemisphere who struggle to grasp the reality of the new world they were unwillingly thrust into With no power no law no comfort and no hope they forge out an existence and discover the comfort in relying on others to survive while experiencing every emotion known to man along the way The choices we make and how to deal with fear loss triumph and peace all while dealing with your own mortality This story explores the reality of a sudden withdrawal of modern convenience the emotions that ensue and how a group can plan a future where the way of life of their descendants will undoubtedly regress till all modern knowledge is lost or is that the case It is both a sobering jolt to the futility of the way we live and heartwarming in the revealing of the need for community in the most dire of circumstances

**American Cities in Post-Apocalyptic Science Fiction** Robert Yeates,2021-11-15 Visions of the American city in post apocalyptic ruin permeate literary and popular fiction across print visual audio and digital media American Cities in Post Apocalyptic Science Fiction explores the prevalence of these representations in American culture drawing from a wide range of primary and critical works from the early twentieth century to today Beginning with science fiction in literary magazines before taking in radio dramas film video games and expansive transmedia franchises Robert Yeates argues that post apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues Examining how the post apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible Chapters present media specific analyses of these texts situating them within their historical contexts and the broader history of representations of urban ruins in American fiction Original in its scope and cross media approach American Cities in Post Apocalyptic Science Fiction both illuminates little studied texts and provides provocative new readings of familiar works such as Blade Runner and The Walking Dead placing them within the larger historical context of imaginings of the American city in ruins

**Challenging Anthropocentrism in Eco-Science Fiction Novels** Fatma Gamze Erkan, 2024-01-03 This book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected British eco science fiction novels. These novels are John Christopher's *The Death of Grass* 1956, J G Ballard's *The Drought* 1965, Brian Aldiss's *Earthworks* 1965, and John Brunner's *The Sheep Look Up* 1972, all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious. This book examines how even the smallest damage caused by human beings to the environment negatively affects them, other living beings, and the ecosystem they need to live and flourish. In conjunction with these factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised. While examining how and why the environmental problems in the novels have arisen, it is evaluated whether the authors propose solutions to these problems and, if so, what they are.

**Fire From The Sky Story** Karri Sauber, 2021-06-11 Character development in a post-apocalypse novel. What a bizarre concept! Okay, if you are reading this for any prepping tips, look elsewhere. This one was all about having won the lottery and throwing literally millions at the problem. Yet another only-the-rich-deserve-to-survive propaganda piece. Except, this is by far one of the better ones because of its characters. Half the book was just about them before any preps began.

**American Survivor** Aj Newman, 2018-01-15 The North Koreans launch a surprise Nuclear EMP attack on the USA. Joe Harp had a cabin and land in Southern Oregon when everything goes bad and retreats to the cabin to survive the massive die-off that was always predicted for an apocalypse. Now he has to learn how to survive in a Post-Apocalyptic world without military or survival training and to make matters worse, others look to him for support and guidance.

**Hope and Kinship in Contemporary Fiction** Gero Bauer, 2024-01-11 Explores the emphasis that contemporary novels, films, and television series place on the present, arguing that hope emerges from the potentiality of the here and now rather than the future and as intimately entangled with negotiations of structures of belonging. Taking its cue from an understanding of hope as connoting an organizing temporality, one which is often presumed to be projecting into a future. **Hope and Kinship in Contemporary Fiction** challenges this understanding, arguing that hope emerges in practices of relationality in the present.

disentangling hope from a necessary correlation with futurity Through close readings of contemporary works including The Road The Walking Dead Cloud Atlas Sense8 The People in the Trees and A Little Life Gero Bauer investigates how these texts explore structures of kinship as creative and affective practices of belonging and care that claim spaces beyond the heterosexual reproductive nuclear family In this context fictional figurations of the child often considered the bearer of the future are of particular interest Through these interventions into definitions of and reflections on fictional manifestations of hope and kinship Bauer s analyses intersect with queer theory new materialism and postcritical approaches to literature and cultural studies moving towards counterintuitively hopeful readings of the present moment
