distinguishes between the traditional route for leadership the gradual moving up of an individual over time to higher positions and a first time leadership in which an individual begins right away in a position without climbing the professional ladder This book will attempt to draw lessons from existing first time leadership experience and provide evidence for the appropriateness of such a route to leadership Topics highlighted include transformational leadership political leaders ethical and unethical leadership and leadership development This book is ideal for young professionals leaders executives managers graduate students practitioners government officials researchers academicians and students *The Marketer's Handbook*

Laurie Young,2011-04-22 This book written by a senior marketer with over thirty years experience of using marketing techniques and concepts sets out to describe contextualize and rate them Its prime emphasis is on understanding their status so that they can be used to direct the use of shareholder funds effectively Its conclusion is that seasoned professionals must use their judgement about when and how to use them but they also need to understand them in depth if they are going to make well rounded effective investment decisions Above all it asks how useful and relevant is this concept Will it improve decision making Does the damn thing have any credibility and does it work This book combines a rigorous review of a wide range of marketing concepts with many practical examples and case studies It can be read or dipped into both by seasoned professionals and by those just embarking on their marketing career Sir Paul Judge President Chartered Institute of Marketing Laurie Young casts an experienced and skeptical eye on many cherished marketing concepts and techniques He provides an antidote to the tendency to adopt them without understanding their limitations and possibilities Professor George Day The Wharton School Chairman of the American Marketing Association Laurie Young has produced nothing less than the A Z of marketing He has journeyed far and wide mapping out hundreds of business marketing and communications models to produce an extremely useful industry atlas Certainly it will find a well thumbed home on my bookshelf Hamish Pringle Director General Institute of Practitioners in Advertising This book is much needed by marketing Its value is in challenging concepts some of which have been the accepted norm for a long time But as this book shows some of these may no longer be relevant and appropriate for marketers in today s consumer environment Mike Johnston CEO Dairy Council of Northern Ireland and former Chairman of the Chartered Institute of Marketing Senior marketers like those who make up the membership of the Marketing Society hone the methods and techniques they favour as their career develops Laurie Young clearly did that and an experienced voice shines through this critique It is heartening to find that so many concepts have a long history of producing real value for businesses but alarming to find so many of the theorists favourites to be so groundless Hugh Burkitt CEO The Marketing Society **Interactive Political Leadership** Eva Sørensen,2020 Drawing on recent theories of interactive governance and political leadership this book develops a concept of interactive political leadership that aims to capture what political leadership looks like in a society of active anti authoritarian and politically competent citizens Routledge International Handbook of Contemporary Racisms John Solomos,2020-02-25 The study of

contemporary forms of racism has expanded greatly over the past four decades Although it has been a focus for scholarship and research for the past three centuries it is perhaps over this more recent period that we have seen important transformations in the analytical frames and methods to explore the changing patterns of contemporary racisms The Routledge International Handbook of Contemporary Racisms brings together thirty four original chapters from international experts that address key features of contemporary racisms The Handbook has a truly global orientation and covers contemporary racisms in both the western and non western geopolitical environments In terms of structure the volume is organized into ten interlinked parts that include Theories and Histories Contemporary Racisms in Global Perspective Racism and the State Racist Movements and Ideologies Anti Racisms Racism and Nationalism Intersections of Race and Gender Racism Culture and Religion Methods of Studying Contemporary Racisms and the End of Racism These parts contain chapters that draw on original theoretical and empirical research to address the evolution and changing forms of contemporary racism The Handbook is framed by a General Introduction and by short introductions to each part that provide an overview of key themes and concerns Written in a clear and direct style and from a conceptual multidisciplinary and international perspective the Handbook will provide students scholars and practitioners with an overview of the most pressing issues of Racisms in our time
