Bookstagram Favorite International Bestseller:

Reading Bestsellers Danielle Fuller, DeNel Rehberg Sedo, 2023-04-27 Readers are essential agents in the production of bestsellers but bestsellers are not essential to readers' leisure pursuits. The starting point in this Element is readers' opinions about and their uses of bestselling fiction in English. Readers' relationships with bestsellers bring into view their practices of book selection and their navigation of book recommendation culture. Based on three years of original research (2019-2021) including a quantitative survey with readers, interviews with social media influencers, and qualitative work with international Gen Z readers in a private Instagram chat space, the authors highlight three core actions contemporary multimodal readers make: choosing, connecting, and responding in a transmedia era where on- and offline media practices co-exist. The contemporary multimodal reader or the MMR3 they argue illustrates the pervasiveness of recommendation culture, reliance on trusted others, and an ethic of responsiveness.

The Routledge International Handbook of Valuation and Society Anne Krüger, Thorsten Peetz, Hilmar Schaefer, 2024-10-15 The Routledge International Handbook of Valuation and Society builds on the growing research interest in practices of valuation throughout contemporary society, providing an up-to-date overview of the different facets of research in the sociology of valuation. The handbook is divided into five major sections with attention to the treatment of valuation in major areas of sociological theory as well as its key concepts, discourses, and approaches: Part I Theoretical perspectives; Part II Central valuation practices in societal spheres; Part III Cross-cutting valuation practices; Part IV Valuation and societal change; Part V Reflections. Together, the chapters in this book characterize distinctive practices of valuation across different societal spheres such as education and science, arts and culture, economic life, the environment, or digital culture and social media. They also examine the role of valuation in contemporary society and consider the ways it effects social change. This seminal handbook aims at taking stock of the development of the study of valuation with a selection of topics that are important for understanding core perspectives and developments as well as anticipating its future orientation. It will appeal to scholars across the social sciences with interest in the ubiquity of the valuation practices and its effects on social life.
