## *Chapter 12: The Geography and History of Latin America*

### *Section 3: Modern Latin America*

#### **Guided Reading**

**Instructions:** Read the section and complete each item with words from the passages in this section.

1. Governments in Latin America often had times of instability since they gained independence. Many have been ruled by military leaders or dictator (people who rule with total authority, often in a harsh way).
2. Democratic systems have spread, however, in the past few decades.
3. One example of a Latin American dictator was Augusto Pinochet of Chile.
4. Many believe that Pinochet was able to keep communist from taking over the country, but others viewed him as a cruel leader who disrespected the rights of anyone who opposed him.
5. Even though elections are held in most Latin American countries today, there is widespread poverty, and liberal and socialist leaders dominate politics.
6. The war on drugs has been an ongoing battle in the United States and in many Latin American countries.
7. Mexico is working to restructure its police force and fund more opposition to drug cartels (criminal drug-trafficking organizations).
8. Cuba has implemented nationwide programs to keep drugs from being a major problem on the small island nation.
9. Unlike Cuba, where education and strict policing have deterred major drug problems, Brazil has large organizations that operate throughout the country.

### **School-based Research**

Elaine Wilson, 2009-02-03 Focused clearly on the needs of the new classroom researcher, this book is a thorough and thoughtful guide to the research process. The book helps new teachers beginning to use research literature to ask questions about published work by considering the standpoint from which questions are asked, what sorts of answers are deemed researchable, and the audience to whom results are to be addressed. It also contextualizes methodological issues alongside key ideas which teachers are likely to be concerned with, such as ability grouping, pupil voice, pupil behavior, teaching approaches, and pupil motivation.

### **Teaching English Through ELA, Mathematics, Science, and Social Studies** Long Peng, 2022-07-21 Accessible and hands on, this textbook provides a comprehensive introduction to teaching language through content, an approach known as Content Based Language Teaching (CBLT). A content based language focused approach to teaching in the disciplines is essential to serving the language and disciplinary needs of English learners (ELs) in the classroom. Guided by learning standards and informed by research, this book demonstrates how content materials in the English Language Arts (ELA), Mathematics, Science, and Social Studies can be harnessed to develop the English language proficiency of ELs as well as advance their disciplinary knowledge and skills. Using content materials in ELA, Mathematics, Science, and Social Studies as a starting point, this textbook illustrates how to teach English as an additional language effectively by integrating language instruction with disciplinary teaching. It showcases numerous learning and instructional activities complete with targeted language exemplified in sentential and discourse contexts, direct instruction, teacher modeling, guided and individual practices, and assessments which are further backed up by detailed discussions of their goals, rationales, and implementation. This textbook also features a discussion of differentiation to address the varied needs of students. To further assist readers in determining how to incorporate language instruction, Peng identifies extensive possibilities for language teaching that are based on the same content materials and beyond those targeted by sample learning activities. Each chapter ends with three types of exercises: multiple choice questions, open ended discussion questions, and problems of application to bolster understanding, promote reflection, and encourage application. Complementing the book are additional online resources including ready to use PowerPoints which are available on the book's webpage at [Routledge.com/9780367521134](http://Routledge.com/9780367521134). Covering key issues such as characteristics of effective language instruction, differentiation, and the challenges associated with CBLT, this is an essential text in TESOL methods and content area language teaching as well as an
