As a positive historical perspective, however, we must be clear that the majority of the 19th-century studies detailing epidemics were published prior to 1850. Further, particularly those that were published prior to 1850 were based on very small numbers of cases, and the data were often anecdotal. The majority of the studies published after 1850 were based on much larger numbers of cases, and the data were often more systematic. The majority of the studies published after 1850 were based on much larger numbers of cases, and the data were often more systematic. Jacobs, Brenda Randolph, Michal LeVasseur, 2001 **Teaching Young Children: Choices In Theory And Practice** Mac Naughton, Glenda, Williams, Gillian, 2008-11-01 This book presents early childhood students and staff with a broad and diverse range of teaching techniques to support children's learning. It examines 26 techniques ranging from simple ones such as describing and listening to more complex methods such as deconstruction and scaffolding. The strategies selected are derived from the best current research knowledge about how young children learn. A detailed evaluation of each strategy enables childcare staff, early childhood teachers and students to expand their repertoire of teaching strategies and to critically evaluate their own teaching in early childhood settings. Vignettes and examples show how early childhood staff use the techniques to support children's learning and help to bring the discussion of each technique to life. Revised and updated in light of the latest research, new features include: Coverage of the phonics debate; Addition of ICT content; Questions for further discussion; Revision to the chapter on problem solving; Updated referencing throughout. *Teaching Young Children* is key reading for students and experienced early childhood staff working in diverse settings with young children.
