Chapter 26 Us History Textbook:

Not Another U.S. History Textbook Adam Strube, 2024-01-15 Why on earth would two history nerds use their own free time to write another US history textbook Well that intelligent human is the right question This work breaks from the traditional memorization of who what when where and focuses on why and how The former is popular in schools due to its efficiency in quantification for testing You re either right or wrong about remembering facts But it s so boring that most students turn off their brains once they set foot in the class and that habit continues well into old age if not recognized and corrected Why and how are more subjective therefore harder to grade But with their asking people become re centered in our collective story where they belong Only then can proper context be understood and criticism and perspective be applied We believe this approach to be the missing link in our education and understanding of current issues norms and discussion points Hopefully after reading this work each reader s critical thinking will activate around all history permanently That will certainly aid humanity s evolution and communication Wait does that mean this book can be categorized as self help Argue away

Reading the Two Books of God Thomas W. Mann, 2022-09-29 Thomas W Mann is a biblical scholar and retired parish minister and the author of numerous books and articles He is particularly interested in how experiences in nature prompt theological reflection based in the Bible shaping our sense of sacred time and place and how the lectionary readings of the church year also provide a spiritual calendar for the seasons of our lives The result is a conversation inspired by poets and writers like Mary Oliver Wendell Berry and John Muir but also by philosophers and theologians ranging from Abraham Joshua Heschel to David Kelsey Along the way we enter beach time and take backpacking trips in the Sierras but also join the triumphal entry parade on Palm Sunday and listen to the stable animals on Christmas Eve We perceive the beauty of creation through the eyes of science as well as religion sensually as well as intellectually We celebrate our communion with all creatures from fungus to forests inspired with awe and reverence and with a responsibility to care for the earth so threatened by climate change

Talking About Race Steven Grineski, Julie Landsman, Robert Simmons III, 2023-07-03 What is it that gives many of us White people a visceral fear about discussing race Do you realize that being able to not think about or talk about it is a uniquely White experience Do you warn your children about how people might react to them find store staff following or watching you get stopped by the police for no reason The students of color in your classroom experience discrimination every day in small and large ways They don t often see themselves represented in their textbooks and encounter hostility in school and outside For them race is a constant reality and an issue they need and want to discuss Failure to do so can inhibit their academic performance Failure to discuss race prevents White students from getting a real critical and deep understanding of our society and their place in it It is essential for the well being of all students that they learn to have constructive conversations about the history of race in this country the impact of racism on different ethnic communities and how those communities and cultures contribute to society The need to model for our students how to talk openly and comfortably about race is critical in America today but it is still an issue that is difficult to tackle To overcome the common fear of discussing race of saying something wrong this book brings together over thirty contributions by teachers and students of different ethnicities and races who offer their experiences ideas and advice With passion and sensitivity they cover such topics as the development of racial consciousness and identity in children admit their failures and continuing struggles write about creating safe spaces and the climate that promotes thoughtful discussion model self reflection demonstrate the importance of giving voice to students recount how they responded to racial incidents and used current affairs to discuss oppression describe courses and strategies they have developed explain the n word present exercises and pose questions For any teacher grappling with addressing race in the classroom and for pre service teachers confronting their anxieties about race this book offers a rich resource of insights approaches and guidance that will allay fears and provide the reflective practitioner with the confidence to initiate and respond to discussion of race from the pre school and elementary classroom
