account of this crucial development in cinema and modern culture Conventional wisdom attributes the rise of the star system to the charisma of individual performers or to the public s desire to idolize an appealing star In *Picture Personalities* Richard deCordova argues that the fledgling movie industry and the press conspired to develop the star system along with a system of discourse to support it DeCordova shows how the studios worked to fabricate moral images of the stars marriages and personal lives and how a series of star scandals in the 1920s challenged those images and brought about changes in the conventions of representing stars Copyright Libri GmbH All rights reserved A to Zoo Rebecca L.
