students university lecturers and practitioners with a comprehensive and structured guide to the major topics and trends of research on counter narratives. The concept of counter narratives covers resistance and opposition as told and framed by individuals and social groups. Counter narratives are stories impacting on social settings that stand opposed to perceived dominant and powerful master narratives. In sum the contributions in this handbook survey how counter narratives unfold power to shape and change various fields. Fields investigated in this handbook are organizations and professional settings, issues of education struggles and concepts of identity and belonging the political field as well as literature and ideology. The handbook is framed by a comprehensive introduction as well as a summarizing chapter providing an outlook on future research avenues. Its direct and clear appeal will support university learning and prompt both students and researchers to further investigate the arena of narrative research.

Utopia Beyond Capitalism in Contemporary Literature Raphael

Kabo, 2023-06-15. Featuring readings of contemporary utopian poetry and fiction from authors such as Juliana Spahr, Mohsin Hamid, Bong Joon-ho, Kim Stanley Robinson, Lidia Yukavitch and Cory Doctorow, this book investigates the commons a form of organisation based on collectivity, communalism and sharing as a type of transition between capitalist precarity and crisis and anti-capitalist futures. Each of the texts under examination was written in opposition to a particular crisis of the capitalist present: inequality, political representation, mobility and climate change and develops a particular mode of utopian commoning. Through its examination of these writers, crises and texts, this book reaffirms the use of utopianism as a tool for generating and representing alternative futures for a world in the midst of ongoing planetary crisis.

Sublimation and Superego

Jared Russell, 2021-11-29. This book integrates thinking about dilemmas faced in the context of the clinical practice of psychoanalysis today with contemporary social and political concerns specific to the age of the global consumer marketplace. Beginning with an analysis of the fate of the concept of sublimation in Freud's work and its relationship to the elaboration of the concept of the superego in 1923, Jared Russell examines how these concepts provide a lever for integrating psychoanalytic thinking with topics of urgent social concern beyond the critique of ideology. Taking up topics such as the experience of time addiction to consumption and the general consequences of the insinuation of digital technologies at increasingly earlier stages in human development and thinking these through the lens of what the clinical practice of psychoanalysis teaches us about intimate human relatedness, the book addresses how a philosophically oriented approach to psychoanalysis can illuminate our response to the problems of everyday life under conditions of late capitalism. Drawing on a diverse range of authors such as Freud, Heidegger, Hans Loewald, Christopher Bollas, Lacan, Deleuze and Bernard Stiegler, it is argued that the concepts of sublimation and of the superego must be reinvented with regard to both clinical and critical discourse today if psychoanalysis is to remain relevant to the major issues we face both individually and collectively in the twenty-first century. *Sublimation and Superego: Psychoanalysis Between Two Deaths* stages a unique encounter between philosophy, critical theory and clinical practice that will be of interest to psychoanalysts, scholars of twentieth century
