Quick Start Stem For Kids:

Programming in the Primary Grades Sam Patterson, 2016-04-08 Programming in the Primary Grades demystifies teaching core content through programming. Without becoming a step by step guide the text helps teachers visualize and implement learning activities that build on the engagement and excitement students experience when they are programming. While the focus of the book is programming it isn't about the technology. Dr Patterson helps teachers visualize and plan engaging and empowering lessons that use programming as a way for students to share their developing understanding of a subject. Whether you have no tech or a full one to one program Programming in the Primary Grades will get you programming with your kids in no time. Children in Intensive Care Joanna H Davies, Lynda Hassell, 2007-10-30 This title is directed primarily towards health care professionals outside of the United States. The needs of critically ill children are unique and this handy pocket book will be invaluable to anyone who needs a quick account of intensive care procedures. It brings together all the vital information in one source and in an accessible format. The text is organised by body systems and gives helpful hints on managing children with various conditions. Tables of normal values are included and additional information is provided about equipment needed in a paediatric emergency. The information is clearly laid out and so is readily accessible. Lightweight, pocket sized and easy to use in a clinical setting. Written by British authors, nothing quite like it on the market. Covers equipment needed in a paediatric emergency, helpful hints on managing a range of patients with various conditions, brings together information not readily available in one book, step by step chest x ray interpretation including abnormalities, non invasive ventilation and capnography, differentiation of upper airway obstruction, new surgical options for very complex cardiac defects, diagrams of the recommended ways to move children with a suspected neck head injury, a chapter on child protection, general features of common childhood illnesses.
