Every chapter follows an aggressive thirty-day timeline, transforming overwhelming possibilities into daily actions: Week one tool setup and niche selection, Week two minimum viable product, Week three testing and refinement, Week four launch and scale. The comprehensive prompt library eliminates the learning curve, allowing immediate implementation. Action checklists ensure you're not just reading but doing. Real-world examples show both spectacular wins and cautionary tales, preparing you for every scenario. Join thousands discovering the AI gold rush isn't just for Silicon Valley insiders.
