Breakthrough Business Analysis Kathleen B Hass, 2014-11-01 Traditional business analysis jobs are going away and are not coming back. BA tools are growing up and typical BA tasks are being automated and commoditized. Instead of being regarded as documenters, BAs are being sought out to focus on strategy, innovation and leadership. **Breakthrough Business Analysis: Implementing and Sustaining a Value Based Practice** provides a framework for implementing a BA practice that is strategically positioned and value based. Realizing the positive impacts of a value based BA practice could very well mean the difference between success and failure for businesses negotiating 21st century challenges. Value based business analysis centers on strategy execution, world class enterprise capabilities and delivery of innovative products and services. The framework for implementing and sustaining a value based BA practice involves three phases: 1. Readiness: Is our organization ready? 2. Implementation: How do we build the BA practice? 3. Sustainability: How do we institutionalize and continue to improve BA practices? Take the lead and be your organization's champion of a value based breakthrough BA practice that is focused on value to the customer and wealth to the bottom line.

and other information workers have to influence various stakeholders regardless of their position in the organization. What makes this ability to influence without authority seem so easy for some and nearly impossible for others. Successful influencers have learned to be trusted advisors in their organizations. They employ three critical ingredients which the authors call the Influencing Formula. This book reveals how the Influencing Formula works and illustrates how it is the new mandate required to effectively influence without authority in any type of organization large or small. **CBAP V3**
