

Letter of Recommendation Computer Science department

As the Head of Computer Science department, it gives me immense pleasure to pen down a recommendation letter for an ambitious student like Sarang Metkar. A hardworking and intelligent student with an excellent grasping power is how I will describe Sarang. My association with him as a final year project guide is sufficient to gauge his intellectual capability and state his suitability for the graduate program from your University. His never-ending quench for acquiring knowledge on new technologies was exhibited while working with him on his final year project.

It was sponsored by Persistent Systems Ltd. They had a requirement to develop a web browser for directory servers like SunONE DS, IBM IDS and OpenLDAP, with LDAP as a communication protocol. His team showed a great perseverance in understanding the new concepts like LDAP and Directory Server. Impressed by the depth of knowledge they have acquired, I asked his team to present a seminar on LDAP and directory server to our college's post-graduate students. He has an excellent presentation and communication skills with a clear understanding of concepts and can articulate his ideas effectively.

He effectively coordinated communication with external project guide and maintained a proper document to track the requirements. He was prompt in suggesting different approaches to meet the requirements and equally flexible to incorporate any suggested changes. He was punctual and never hesitated to put more efforts to complete his task. His work was highly appreciated and earned him an offer to work as a Software Engineer in sponsoring company. Sarang consistently exceeded in all areas of his coursework and was amongst top 5% in the department.

Owing to his excellent academic record, he was awarded merit scholarship for all four years. He also displayed a good interest in co-curricular activities and represented our college in various programming and quiz competition. Speaking of his leadership skill and organizing ability, he successfully coordinated a state-level Technical event named 'Equinox'. He single handedly managed a C-programming competition, called "C-Netics", in our Department which was a huge success. He volunteered National-level workshops on "Emerging Trends in IT" and different chapters of Computer Society of India(CSI) conducted in our college.

When elected as a 'Class Representative', he effectively discharged his duty of coordinating, managing and encouraging student participation. He possesses the intelligence and capacity for sustained hard work to ace the toughest program. By virtue of his strong academic foundation, he has developed the necessary aptitude, attitude and passion for pursuing the graduate education. In view of his inherent potential, strong determination and persistence, I believe that he will scale the highest peaks in his fields of interest and strongly endorse his application for admission to your esteemed institution with full confidence.

Computer Science Recommendation Letter

Peterson's Guides Staff, Peterson's

Computer Science Recommendation Letter:

Peterson's Graduate Programs in Computer Science & Information Technology, Electrical & Computer Engineering, and Energy & Power Engineering 2011 Peterson's, 2011-05-01 Peterson's Graduate Programs in Computer Science Information Technology Electrical Computer Engineering and Energy Power Engineering contains a wealth of information on colleges and universities that offer graduate work in these exciting fields. The profiled institutions include those in the United States, Canada and abroad that are accredited by U.S. accrediting bodies. Up to date data collected through Peterson's Annual Survey of Graduate and Professional Institutions provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part time and evening weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research and unit head and application contact information. Readers will find helpful links to in depth descriptions that offer additional detailed information about a specific program or department, faculty members and their research and much more. In addition, there are valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation with a current list of accrediting agencies.

Cracking the MCAT, 2013-2014 Edition James L. Flowers, M.D., Princeton Review, Theodore Silver, M.D., 2012-12-04 If you need to know it for the MCAT, it's in this book. The MCAT is a challenging exam that tests more than your knowledge of basic physical and biological sciences. You need to know absolutely everything from amino acids and proteins to translational motion to verbal reasoning and more. *Cracking the MCAT 2013-2014 Edition* will help you review all the necessary content with in-depth coverage of all subjects tested on the MCAT. This book includes exclusive free online access to 4 full-length practice tests with comprehensive answers and explanations. A full-color 16-page tear-out reference guide with all the most important formulas, diagrams, information, concepts and charts for each section of the MCAT. Complete coverage of all the topics on the MCAT, including physics, general chemistry, biology, organic chemistry and verbal reasoning. Practice passages, questions and detailed explanations with step-by-step solutions at the end of every chapter for maximum practice and preparation. A bonus chapter containing helpful advice on effective study habits applying to medical school and top trends in health care. A comprehensive index. Study your way to success with *Cracking the MCAT 2013-2014 Edition*.

Planning a Life in Medicine The Princeton Review, John Smart, Stephen Nelson, Julie Doherty, 2011-11-23 A life in medicine is something that many dream of but few achieve. The tests students face both literal and figurative just to get into medical school are designed to weed out the weak. In *Planning a Life in Medicine* the experts at The Princeton Review help you succeed in a premedical program, score higher on the MCAT, meet the challenges of medical school and ultimately flourish in your medical career. More than just a comprehensive plan for getting into medical school, *Planning a Life in Medicine* is a handbook that will help you to cultivate the skills and habits such as compartmentalizing knowledge and improving concentration that will help you along your path of heart and serve you well.
