Catholic Higher Education A Culture In Crisis:

Catholic Higher Education Melanie Morey, John Piderit, 2010-05-28 Today Catholic colleges and universities are dealing with critical questions about what constitutes Catholic collegiate identity. Based on their research Morey and Piderit describe the present situation and offer concrete suggestions for enhancing Catholic identity culture and mission at all Catholic colleges and universities. The authors define the critical issues and analyze and address them by using the rich construct of culture particularly organizational culture and they provide four different models of how Catholic colleges and universities can operate and successfully compete as religiously distinctive institutions in the higher education market. **Contending with Modernity** Philip Gleason, 1995 A detailed history of Catholic higher education in the USA which emphasizes the intellectual and institutional dimensions of the subject. **The Challenge and Promise of Catholic Higher Education**

Kathy Ann Herrick, 2011 Twenty years after *Ex Corde Ecclesiae* the papal proclamation that defined the relationship between the Catholic Church and Catholic institutions of higher education these institutions continue to seek ways to strengthen their Catholic identities. As they do so they are faced with a declining number of religiously vowed men and women available to lead them. An institution's history is often linked to the mission of its founding congregation. As members of the congregation become less actively involved the connection of the institution's mission to the founding congregation and their particular charism is likely less visibly evident. Additionally the role of the American university president today is viewed by many to be an almost impossible job. As members of the laity are increasingly assuming the leadership of these institutions it is important to presidents their institutions boards and founding congregations to have a deeper understanding of how the lay president understands the role of supporting and advancing the Catholic mission and how the lay president is prepared to do so. This dissertation provides a broad review of the history of the mission of Catholic institutions of higher education and of the changing role of the American college president particularly presidents of Catholic institutions. An in depth qualitative study of one current lay president with ten years of service utilizing interviews, observations and artifact document reviews was conducted. Three major themes emerged from the data: the significance of the president's own Catholic identity, his vocation as a Catholic educator and the intentionality of his leadership for mission specifically. The president's leadership style is also discussed in relationship to the success of the institution he leads and in context with the leadership styles described in *Catholic Higher Education A Culture in Crisis* Morey and Piderit 2006. **Inclusion and Sexuality in Catholic Higher Education** Mark A. Levand, 2023-05-23 Drawing on research conducted at 17 Catholic universities in the United States making it the largest study of its kind this volume explores effective practice in improving institutional policy relating to issues of sexuality. The text calls attention to campus cultures of fear, shame or denial around sexuality and highlights possible points of institutional resistance to changes in policy. Discussing topics such as sexual identity, sexuality education in the curriculum, Title IX employee termination and morality clauses the book shows how staff and faculty are crucial in

effecting change across Catholic campuses providing valuable insight into the unspoken rules around sexuality within the shadow culture at Catholic institutions. Moreover, the text illustrates how institutions can maintain fidelity to Church teachings and even embrace notions of human dignity, solidarity, and the common good to achieve sexual inclusivity. A unique study demonstrating how Catholic teaching can help support inclusive change around issues of sexuality and gender in higher education, it ultimately puts forward a practical framework for effecting change and improving student and staff support structures in Catholic institutions. It will thus appeal to researchers and academics working in the fields of Higher Education Management, Gender and Sexuality in Education, Religion, Gender and Sexuality, and the Sociology of Religion.

Theology & Catholic Higher Education Faggioli, Massimo, 2024-11-20 **Status Envy** Anne Hendershott, 2011-12-31

The debate within Catholic educational circles on whether church sponsored colleges and universities perpetuate mediocrity by giving too great a priority to the moral development of students instead of scholarship and intellectual excellence continues in this book by sociologist Anne Hendershott. She asserts that part of the reason for the crisis of faith within Catholic colleges is due to status envy, the desire to compete with the top colleges in the country. Catholic universities are generally not rated as top notch. They are viewed as having a lower status than secular institutions, which of course creates resentment. Catholic universities in turn become more secular as they become consumed with status concerns. Detailing how this resentment manifests itself on campuses, Hendershott explains faculty and administrative attempts to distance universities from Catholic ideas and curriculum. Some have distanced themselves so far from their Catholic origins that the church no longer recognizes them as Catholic institutions. The author questions whether even determined Catholic universities will be able to avoid the pressures to become more secular. Hendershott, who clearly sympathizes with the original mission of Catholic universities, leads the reader through the earliest signs that Catholic colleges were beginning to lose their way in the 1960s up through the ongoing issues of feminism and homosexuality and their impact. In focusing on these secular issues, colleges are denying exposure to the traditional Catholic views on subjects such as homosexuality, women's ordination, and abortion. Like all culture wars, the interaction among people defines the situation. The campus is a reflection of the greater culture between those who assert that there are no truths, only readings, and those who believe that the truths have been revealed and require constant rereading and application. It is a conflict between those dedicated to the negation of the authority of Scripture and the hierarchy of the church and those proposing a renaissance of the Catholic intellect and a renewed appreciation of the church itself.

The Future of Catholic Higher Education James L.

Heft, 2021-06-04. The Future of Catholic Higher Education advances a vision of the Catholic University that is neither a closed circle of only Catholics nor a market place of ideas with no distinctive mission but rather an open circle one that fosters the Catholic intellectual tradition by including scholars of many religions, rooting Catholic social thought in Catholic doctrine, defending academic freedom and the mandatum. Drawing upon his extensive experience, James Heft lays out the current state

of Catholic Higher Education and what needs to be done to ensure that Catholicism isn't phased out of the educational system. Heft analyzes the foundational intellectual principles of Catholic Higher Education and both the strengths and weaknesses of the present day system in order to look at possibilities for its future. **Women in Catholic Higher Education** Sharlene Nagy Hesse-Biber, Denise Leckenby, 2003-01-01. Delving into discourse traditionally silenced by the Catholic hierarchy, this edited collection observes the ways in which patriarchal structures often hinder women's advancement within Catholic institutions of higher learning. The contributors describe their own conflicts and successes in their attempts to negotiate their academic careers and personal lives in the context of the clash between secular and Catholic patriarchal values. The contributors suggest concrete steps toward social justice for women who teach and work in Catholic higher education.

Catholic Higher Education and Catholic Social Thought Prusak, Bernard G, Reed-Bouley, Jennifer, 2023. Responding to the signs of the time, this book brings the lens of Catholic social thought (CST) to the enterprise of Catholic higher education in the United States. Scandals in the Church and the growth of religious non-affiliation in the culture have made being Catholic greatly challenging for Catholic colleges and universities at the same time that the economics of higher education have mounted a challenge to the very viability of many institutions. This book throws light on what Catholic colleges and universities might and must do in order both to preserve their mission and renew it for the future. CST is concerned with the right ordering of social institutions, or in other words, the systems in which individuals live and work. CST is accordingly relevant not only to the internal dynamics and structures of Catholic colleges and universities but to the system of U.S. higher education in which individual colleges and universities operate. This edited volume, consisting of high-quality chapters by authors with disciplinary expertise, deploys the resources of CST to shed light on both internal and external challenges to opportunities for and obligations on institutions of Catholic higher education in the U.S. context.

The Crisis of Western Education (The Works of Christopher Dawson) Christopher Dawson, 2010. A new edition of Christopher Dawson's classic work on Christian higher education. **Catholic Higher Education in Protestant America** Kathleen A. Mahoney, 2003-09-10. Winner of the 2005 New Scholar Book Award given by Division F History and Historiography of the American Educational Research Association. In 1893, Harvard University president Charles W. Eliot, the father of the modern university, helped implement a policy that in effect barred graduates of Jesuit colleges from regular admission to Harvard Law School. The resulting controversy, bitterly contentious and widely publicized, was a defining moment in the history of American Catholic education, illuminating on whose terms and on what basis Catholics and Catholic colleges would participate in higher education in the twentieth century. In *Catholic Higher Education in Protestant America*, Kathleen Mahoney considers the challenges faced by Catholics as the age of the university opened. She describes how liberal Protestant educators such as Eliot linked the modern university with the cause of a Protestant America and how Catholic students and educators variously resisted, accommodated, or embraced Protestant inspired educational reforms. Drawing on

social theories of cultural hegemony and insider outsider roles Mahoney traces the rise of the Law School controversy to the interplay of three powerful forces the emergence of the liberal nonsectarian research university the development of a Catholic middle class whose aspirations included attendance at such institutions and the Catholic church s increasingly strident campaign against modernism and by extension the intellectual foundations of modern academic life Christian Faith and Scholarship: An Exploration of Contemporary Developments Todd C. Ream,Perry Lynn Glanzer,2007-09-17 In the twenty first century religious faith has reemerged from the margins of modernism and moved back to the center of contemporary scholarly conversations When Jacques Derrida died Stanley Fish recently wrote I was called by a reporter who wanted to know what would succeed high theory and the triumvirate of race gender and class as the center of intellectual energy in the academy I answered like a shot religion A group of evaluators of the Lilly Endowment s Initiative on Religion and Higher Education recently agreed There is today more discussion about the role of religion in the academy than at any time in the past 40 years and more commitment to the project of Christian higher education than there was just ten years ago In recognition of these developments this particular monograph offers an overview of the various ways conversations about religion and religiously informed scholarship are increasing in the academy Although a growing number of faith traditions are finding their place in this conversation the Christian tradition in its various forms is still the dominant voice This monograph addresses the history of secularization in American higher education and scholarship the historical and resistance by dominant religious traditions to that secularization the contemporary ways that individual scholars networks and institutions approach the question of religious faith and scholarship the concerns such a question raises for academic freedom and the relationship between religious faith and scholarship **Negotiating Identity** Alice Gallin,2000 As in her earlier study of governance change in seven Catholic colleges one of Gallin s primary concerns is to demonstrate the complexity of the task which rules out any simple interpretations or answers Gallin describes the crucial impact of theological changes from Vatican II the threat of exclusion from government funding for higher education after World War II issues of academic freedom from differing perspectives the transformations in student bodies and faculty loyalties and the struggle of Catholic colleges and universities to become respected members of the American higher education community Of special interest will be her discussion of events leading up to the issuance of Ex Corde Ecclesiae on which debate continues
