Catholic Social Teaching A New Synthesis Rerum Novarum To Laudato Si:

Catholic Social Teaching Daniel Schwindt, 2015-06-19 We need to develop a new synthesis capable of overcoming the false arguments of recent centuries Christianity in fidelity to its own identity and the rich deposit of truth which it has received from Jesus Christ continues to reflect on these issues in fruitful dialogue with changing historical situations In doing so it reveals its eternal newness from the encyclical letter Laudato Si Pope Francis ground breaking encyclical letter on the environment caught the attention of the world Many observers were surprised to see the Catholic Church addressing such topics Others perhaps wondered what is an encyclical anyway What Pope Francis latest major statement has also brought into public view is the long and powerful tradition of Catholic reflection on society and its arrangements economic political social and now environmental known as Catholic social teachings the unexploded dynamite of the Church as Catholic social activist Peter Maurin once put described them In their modern form these documents date from Pope Leo XIII s Rerum Novarum 1891 and continue down through the papacies of St John Paul II Pope Emeritus Benedict XVI and Pope Francis In answer to the pope s call for a new synthesis comes this highly accessible work Author Daniel Schwindt also supplies a brief but succinct historical background for this remarkable and influential series of reflections on war and peace social justice economics and property and much more

Jon Sobrino and Pope Francis Michel Simo Temgo SCJ, 2019-05-29 To examine the use of the preferential option for the poor in theology today this book turns to two contemporary Jesuits Jon Sobrino and Pope Francis Based on their understanding of the phrase this book initiates a debate about the search for an alternative theological expression It suggests that the preferential option for the poor should be replaced by compassion for the vulnerable

Cathonomics Anthony Annett, 2022 Inequality is skyrocketing In this world of vast riches millions of people live in extreme poverty barely surviving from day to day All over the world the wealthy s increasing political power is biasing policy away from the public interest and toward the financial interests of the rich At the same time many countries are facing financial fragility and diminished well being On top of it all the global economy driven by fossil fuels has proven to be a collective act of self sabotage with the poor on the front lines In a new foreword to his book Anthony M Annett examines the Biden administration s economic policies and discusses reactions to Cathonomics A growing

chorus of economists and politicians is demanding a new paradigm to create a global economy that seeks the common good In *Cathonomics* Annett unites insights in economics with those from theology philosophy climate science and psychology exposing the failures of neoliberalism while offering us a new model rooted in the wisdom of Catholic social teaching and classical ethical traditions Drawing from the work of Pope Leo XIII Pope Francis Thomas Aquinas and Aristotle Annett applies these teachings to discuss current economic challenges such as inequality unemployment and underemployment climate change and the roles of business and finance *Cathonomics* is an ethical and practical guide for readers of all faiths and backgrounds seeking to create a world economy that is more prosperous inclusive and sustainable for all *Australian Pentecostal and Charismatic Movements*, 2020-04-28 In *Australian Pentecostal and Charismatic Movements* Arguments from the Margins Rocha Hutchinson and Openshaw argue that Australia has made and still makes important contributions to how Pentecostal and charismatic Christianities have developed worldwide This edited volume fills a critical gap in two important scholarly literatures The first is the Australian literature on religion in which the absence of the charismatic and Pentecostal element tends to reinforce now widely debunked notions of Australia as lacking the religious tendencies of old Europe The second is the emerging transnational literature on Pentecostal and Charismatic movements This book enriches our understanding not only of how these movements spread worldwide but also how they are indigenised and grow new shoots in very diverse contexts **Modern Catholic Social Teaching** Kenneth R. harmony much like the medallions in a rose window If God exists then every individual person is a subject of rights freedom and dignity If God exists then no one is expendable and everyone is equally worthy of respect *Things Old and New* Samuel M.
